Dear Sara,

At the recent meeting of the South Dakota Board of Nursing conducted on November 13-14, 1996, the Board considered your request for early closure of the probation set forth in the Board Stipulation and Order, dated February 1, 1995. The Board voted unanimously to approve the closure of your probation effective September 14, 1996.

As a result of the Board's action, you should return your current renewal certificate stamped "probation", so that a clean unencumbered renewal certificate can be reissued to you. Your computerized licensure profile will also be updated to remove the restricted status of your license.

On behalf of the Board, I want to commend you for the progress you have made during the past two years. Your professional growth was very evident to the Board. I wish you the very best in your professional nursing career!

Sincerely,

A handwritten signature in cursive script that reads "Diana Vander Woude".
