

Name of Document: Letter of Reprimand with Remediation
Licensee: James McNeely, RN, CNP

other health care providers as appropriate for proper pain management. The Board recommended a Letter of Reprimand with Remediation to be issued.

The above finding and recommendation was then presented to the Investigative Review Panel for the South Dakota Board of Medical and Osteopathic Examiners for consideration, at which time the Investigative Review Panel for the Board of Medical and Osteopathic Examiners concurred with the Board of Nursing's action. Therefore, the Joint Board of Nursing and Medical and Osteopathic Examiners according to the disciplinary procedures outlined in ARSD 20:62:06, issue this Letter of Reprimand and completion of the following Remediation:

The Licensee shall provide evidence to the Joint Board of having enrolled in an approved graduate level education activity in pain management by January 5, 2016 and shall provide evidence of completing the approved education activity by June 1, 2016.

Failure to complete the education activity by June 1, 2016 may result in further action by the Joint Board, which may include suspension of your privilege to write prescriptions for controlled drugs.

This final action is reportable discipline and will be published in the Board's newsletter, posted on its website, and reported into the National Practitioner Data Bank (NPDB) as required by law. As this is a reportable discipline, you are required to provide an affirmative response to inquiries of disciplinary action on further renewals and other nursing related inquiries.
