WHEREAS, Amanda C. Rolstad, LPN("Licensee"), is licensed to practice as a practical nurse in the State of South Dakota and holds License number P-010189; and

WHEREAS, on or about July 2011, Licensee self-reported to the South Dakota Board of Nursing ("Board") an open container misdemeanor and that she had undergone a chemical dependency evaluation. A follow up UJS record search revealed previously undisclosed alcohol offenses. Based upon this disclosure, the Licensee was mandated by the Board into the Health Professionals Assistance Program ("HPAP"). Licensee initiated enrollment into HPAP on December 8, 2011. The HPAP Committee denied Licensee's admission to HPAP based upon her previous legal history, her notable omissions and lack of disclosure on her written intake, and a pattern of lack of disclosure in the evaluations leading up to the HPAP referral. Upon denial of the HPAP admission, the Board ordered that Licensee undergo a psychological evaluation. On March 21, 2012, Licensee

underwent psychological evaluation, which identified concerns and recommended follow up with chemical dependency evaluation and didactical behavior therapy to address her issues; and

WHEREAS, Licensee has agreed that she would surrender her South Dakota nursing license to address her current issues; and

WHEREAS, the Board has a statutory obligation to protect the public health, safety and welfare set forth in SDCL §36-9, including the protection of the public from unsafe nursing practices and practitioners; and

WHEREAS, Licensee agrees that the matters under investigation would be of a nature that would constitute grounds for the discipline of her license to practice nursing in South Dakota under SDCL § 36-9-49; and

WHEREAS, the Licensee agrees that she enters into this Voluntary Surrender Consent Order voluntarily and without duress or compulsion, in full understanding of the legal consequences of this document and her rights; therefore,

ITS IS HEREBY STIPULATED AND AGREED AS FOLLOWS:

1. That the Board has jurisdiction over the person of the Licensee and the subject matter of this Voluntary Surrender Consent Order.
2. That on or about July 2011, Licensee self-reported to the Board an open container misdemeanor and that she had undergone a chemical dependency evaluation. A follow up UJS record search revealed previously undisclosed alcohol offenses. Based

upon this disclosure, the Licensee was mandated by the Board into HPAP. Licensee initiated enrollment into HPAP on December 8, 2011. The HPAP Committee denied Licensee's admission to HPAP based upon her previous legal history, her notable omissions and lack of disclosure on her written intake, and a pattern of lack of disclosure in the evaluations leading up to the HPAP referral. Upon denial of the HPAP admission, the Board ordered that Licensee undergo a psychological evaluation. On March 21, 2012, Licensee underwent psychological evaluation, which identified concerns and recommended follow up with chemical dependency evaluation and didactical behavior therapy to address her issues.

Licensee has agreed that she would surrender her South Dakota nursing license to address her current issues, and now intends to leave the profession of nursing as a practical nurse.

Licensee hereby voluntarily waives all such rights to a hearing, notice, appearance, or any other rights under said Constitutions, laws, rules and/or regulations. Licensee also agrees that the Board's Executive Director or her designee may present this Voluntary Surrender Consent Order to the Board and disclose to the Board all items of her investigation, including, but not limited to, any communications with Licensee.

4. That the Licensee's license to practice nursing in South Dakota and her privilege to practice nursing pursuant to the Nurse Licensure Compact shall be surrendered and the Board shall suspend said license for an indefinite period from the date of this Order. Licensee may apply to have her license reinstated for good cause shown.

5. That nothing in this Voluntary Surrender Consent Order should imply that the Licensee shall be reinstated. Licensee recognizes that the reinstatement terms, as well as the requirements for reinstatement, are at the sole discretion of the Board.

6. That if the Licensee requests reinstatement, Licensee has the burden of presenting information showing that Licensee's license should be reinstated.

7. That it is further stipulated and agreed that this Voluntary Surrender Consent Order is being entered into voluntarily by the Licensee and without threats or coercion and is entered into after the Licensee has been given ample opportunity to consider these matters and to discuss this Voluntary Surrender Consent Order with an attorney of Licensee's choice and that the Licensee has a full understanding of the legal consequences of this Voluntary Surrender Consent Order and of the Licensee's rights to a formal hearing on these matters, which rights are hereby waived by the signing of this Voluntary Surrender Consent Order.

8. Licensee understands that during the period of this Voluntary Surrender that she is ineligible to work in any nursing role, including that of a nurse aide, nurse assistant, or medication assistant/aide.

9. This action is reportable discipline and will be published in the Board's newsletter and posted on its web site and reported into the Healthcare Integrity and Protection Data Bank (HIPDB) and National Practitioner Data Bank (NPDB) as required by law.

10. That the Board may enter an Order consistent with the terms of this Stipulation.
