1. Optometrists are limited to prescribing for the eyes. Optometrists may prescribe, administer or dispense oral and topical pharmaceutical agents including analgesic and antibiotic agents rational to the diagnosis and treatment of the human eye and its appendages. They may not prescribe, administer or dispense any oral therapeutic agent to any child less than 12 years of age, or any oral steroid to any person, without prior consultation with a licensed physician. They may not prescribe injectable products.
2. A dentist may prescribe or administer drugs only in connection with dental related ailments or conditions. Anti-Anxiety medications may only be prescribed for dental visit.
3. PA's are considered agents of a supervising physician and may prescribe medications, including controlled substances. For products listed in Schedule II, they may prescribe for one period of not more than 30 days; except as authorized by federal law which allows for multiple CII prescriptions written for a period not to exceed 90 day supply if appropriately dated on the day of issue and which include a date in which the subsequent prescriptions may be filled. They may also write for a 60 day supply for partial filling for long term care and hospice patients as allowed by state and federal law.
4. CNP's and CNM's no longer have supervisory physician requirements or CII prescribing limits as of the 2017 legislative session.
5. Registered pharmacists may initiate or modify drug therapy by protocol or other legal authority established and approved within a licensed healthcare facility or by a practitioner authorized to prescribe drugs.
6. Veterinarians can only prescribe to treat non-human animals.
7. Podiatrists may only prescribe to treat conditions of the foot.
8. Naturopathic physicians or naturopathic doctors are not licensed in SD and have no prescribing authority.
