BACKGROUND

The South Dakota Department of Health (SD DOH) is the lead agency for the statewide management of tobacco use prevention and cessation. The South Dakota Tobacco Control Program’s (SD TCP) efforts are based on practices shown to be successful and recommended in the Best Practices for Comprehensive Tobacco Control Programs compiled by the Centers for Disease Control and Prevention (CDC). The SD TCP promotes a coordinated effort to prevent tobacco use and reduce the death and disease caused by tobacco use and is committed to helping develop programs designed to encourage, promote and support tobacco-free lifestyles and reduce tobacco-related disparities.

The purpose of the Disparities Grant Program is to support local community and organization based efforts, promote implementation of the South Dakota Tobacco Control State Plan, and foster collaboration among organizations across the state to ultimately reduce the toll of tobacco use in South Dakota.
The SD TCP will provide support for the Disparities Grant recipients with technical assistance through the Tobacco Disparities Coordinator during the grant period.

The SD TCP also provides funding through the Community/School Partnership Grant program, which is offered on a similar grant cycle. Please view the TCP Grant Decision Tool document, found on http://doh.sd.gov/prevention/tobacco/disparitiesgrants.aspx, to determine which program best fits your chosen tobacco prevention and cessation activities. Applicants may apply for both grants if they meet individual grant eligibility criteria.

**GRANT OVERVIEW**

The purpose of the Disparities Grant Program is to promote long-term change aimed at reducing disparate tobacco use among the following SD TCP priority populations: youth and young adults, American Indians, pregnant women, Medicaid clients, spit tobacco users, and the mental health and substance abuse populations. Full descriptions of each priority population can be found in the Priority Population Guidelines, located on befreessd.com/about.

Disparities grants are awarded to local governmental and non-profit community-based organizations, coalitions, and groups that support the mission of the SD TCP. Examples include, but are not limited to, youth groups, schools, post-secondary institutions, civic associations, service clubs, healthcare organizations, faith-based organizations, parent groups, neighborhood associations, and local community coalitions.

The Disparities Grant Program is designed to invest in projects that address the goals outlined in the South Dakota Tobacco Control State Plan, with a specific focus on one or more of the six identified priority populations as outlined in the “Supporting Evidence” section on page 18 of the State Plan.

To be successful, applicants must demonstrate the following:

a. Ability to bring together key stakeholders (local agencies, partners, individuals) to collectively support proposed activities.
b. Capacity, competence and experience to accomplish project objectives and activities.
c. Services must be provided in South Dakota.
d. Use of evidence-based tools such as the Post-Secondary Tobacco Policy Toolkit, Tribal Tobacco Policy Toolkits (K12, post-secondary, and community), and the South Dakota Tobacco Control Toolkit: A Community Guide to Action.
e. Willingness to collaborate with the South Dakota Tobacco Control Program.
f. Requested funding will not supplant funds currently received by the applicant.
g. Measurable results and responsibilities of partners outlined in the evaluation plan.
h. A detailed budget appropriate for the level of activities planned.
