

Oral Health Videos

The following videos are available for check out to South Dakota entities from the South Dakota Department of Health. To check out a video for loan, contact Tammy Mettler, South Dakota Department of Health, at Tammy.Mettler@state.sd.us or 605-539-1866.

VIDEOS FOR CHILDREN

Goofy Over Dental Health (1990)

A 13 minute video for young children teaching good oral health with help from the Disney character Goofy, and others. 8 year old Kevin is magically transported to Dr. Molars' dental office where Goofy, Dr. Molars' dental-helper-for-the-day, teaches Kevin about the importance of healthy teeth.

Totally Terrific Teeth (1999)

A 13 minute video for elementary age children about the importance of good oral health. Through teamwork the children in this clubhouse present an oral health skit for a cavity prone member.

VIDEOS INCLUDED IN EDUCATIONAL KITS

Dr. Rabbit Comes to School (2003)

A 12 minute video for young elementary age children. Alpha Betty and Dr. Rabbit visit young school children and entertain/teach them about teeth and letters of the alphabet.

Dr. Rabbit's World Tour (1998)

A 13 minute video for elementary age children. A cartoon about children traveling around the world with Dr. Rabbit while learning about oral health and other cultures.

Jody Says "Love Your Teeth"

The 15 minute video included in this educational kit is designed to assist in teaching hearing impaired about the importance of good oral health. The kit contains a large coyote hand puppet, puzzles, story booklets, mouth model, and a large toothbrush.

VIDEOS FOR PARENTS

Care of Children's Teeth (1994)

A 10 minute video for parents about the importance of taking care of their children's teeth for proper chewing and speech development. It shows how to prevent "baby bottle tooth decay" and teaches the need for encouraging good eating habits early in life. Orthodontia and the use of mouth guards are covered along with flossing and making the child's daily dental routine a pleasant experience.

Healthy Teeth: A Guide for Parents of Pre-schoolers (1993)

A 25 minute, 2 part video that is very good for parents of toddlers about the causes of tooth decay, healthy snacks, fluoride, and visiting the dentist.

Take Time for Teeth (1997)

A 5 minute video that is excellent for pregnant women and parents of infants about how to look for and prevent early childhood caries (ECC). Good visuals, tips and demonstrations.

Or: Contact SD Dental Assn. (224-9133) for their videos that can be checked out, or Contact Delta Dental (224-7345) for their Tooth on the Go bags that can be checked out.
