

psychological evaluation was ordered to clarify the dynamics of your personality and symptom functioning as it relates to your ability to function as a nurse. The May 25, 2012 psychological evaluation was within normal limits, but could not rule out the possible tendency toward making errors and having bad attitude in some circumstances, or having social skill limitation under stress. Based on the information provided to the Board, the Board has determined that your conduct is in violation of SDCL § 36-9-49(2), (5), (7), and (10).

Therefore, the Board, according to the disciplinary procedures outlined in ARSD 20:48:08, issues this Letter of Reprimand. In addition, the Board will require you to complete learning modules on (1) Medication Errors: Detection and Prevention; (2) Documentation: A Critical Aspect of Client Care; and (3) Ethics of Nursing Practice. You are responsible to purchase and complete these modules and return them to the Board office no later than Sept 21, 2012, with a successful Certificate of Completion. You can register for these modules on the following website: www.learningext.com.

This final action is reportable discipline and will be published in the Board's newsletter, posted on its website, and reported into the Healthcare Integrity and Protection Data Bank (HIPDB) and National Practitioner Data Bank (NPDB) as required by law. As this is a reportable discipline, you are required to provide an affirmative response to inquiries of disciplinary action on further renewals and other nursing related inquiries.

Dated this 19th day of July 2012.

SOUTH DAKOTA BOARD OF NURSING

Gloria Damgaard, Executive Director
