2019 Novel Coronavirus (COVID-19)

South Dakota Department of Health

August 12, 2021

We will begin in just a few moments. Thanks!

Not intended for press or for reporting purposes.
This is an **emerging, rapidly evolving situation**. Information in this presentation is current as of August 11, 2021. Please check the South Dakota Department of Health website for the most current information and guidance.

[COVID.sd.gov](https://COVID.sd.gov)
Agenda

- Situation Update
- Laboratory Guidance
- Long Term Care
- Vaccination Update
- Infection Prevention
- Community Mitigation
- Supply Chain Management
- On-going Communications
- Q&A Session

Not intended for press or for reporting purposes.
Spread of the Delta variant

• Viruses constantly change through mutation and slightly different forms of a virus are called variants

• Delta is a variant that is approximately twice as infectious person to person compared to the original virus
  o R-naught value: Average number of persons infected from a single case in a naïve population
    ▪ Delta variant: ~5 to 7
    ▪ Original strain: ~3
  o Highest spread happening in communities with low vaccination rates

• Best way to stop the spread of Delta in communities is to get vaccinated against COVID-19

Not intended for press or for reporting purposes
Impact of the Delta variant

- Delta variant has rapidly become the predominant virus
  - Increase in cases from June 15 to August 10
    - +757% in US: 13,232 cases/day to 113,357
    - +646% in SD: 13 cases/day to 97
  - Increasing number of breakthrough cases
    - Vast majority of breakthrough cases avoid hospitalization and death

Not intended for press or for reporting purposes

https://covid.cdc.gov/covid-data-tracker/#variant-proportions
https://covid.cdc.gov/covid-data-tracker/#trends_dailytrendscases
Level of Community Spread

• SD-DOH updated levels of community spread to match CDC

<table>
<thead>
<tr>
<th>Indicator - if the two indicators suggest different transmission levels. the higher level is selected</th>
<th>Low Transmission Blue</th>
<th>Moderate Transmission Yellow</th>
<th>Substantial Transmission Orange</th>
<th>High Transmission Red</th>
</tr>
</thead>

</table>

• Ways to monitor community spread:
  o CDC: [https://covid.cdc.gov/covid-data-tracker/#county-view](https://covid.cdc.gov/covid-data-tracker/#county-view)
  o SD-DOH: [https://doh.sd.gov/COVID/Dashboard.aspx](https://doh.sd.gov/COVID/Dashboard.aspx)

• SD-DOH updated weekly on Monday

Not intended for press or for reporting purposes
Coronavirus Situation (as of August 10, 2021)

- **International**
  - 203,295,170 confirmed cases
  - 4,303,515 deaths
- **United States** (50 states + DC)
  - 35,657,845 confirmed cases
  - 612,060 deaths
- **South Dakota**
  - 126,454 confirmed and probable cases
  - 2,051 deaths
  - 123,254 recovered cases

*Not intended for press or for reporting purposes.*

General Testing Recommendations

Medical providers are recommended to test individuals (1) identified as a close contact to a person with COVID-19 or (2) signs and symptoms compatible with COVID-19 infection, including:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Not intended for press or for reporting purposes.
Reporting COVID-19 Tests to SD-DOH

• **Reminder**: Coronavirus respiratory syndromes are a Category I disease

• Report *immediately* on suspicion of disease

• Reporting mechanisms:
  • Electronic Laboratory Report (ELR) – HL7 message to SD Health Link (health information exchange)
  • Flat file (CSV) – Secure email
  • Disease reporting website – [sd.gov/diseasereport](http://sd.gov/diseasereport)
  • Fax – 605.773.5509

*Not intended for press or for reporting purposes.*

Laboratory Guidance

This call is not intended for the press or for reporting purposes.
COVID-19 Tests Reported to SDDOH by Month

COVID-19 Testing Program Readiness:

- ✓ Anticipate a surge in testing demand
- ✓ Maintain tiered approach to testing
- ✓ Reach out to vendors now to discuss needs
- ✓ Prepare for a return to “allocation”
- ✓ Prepare for delays and back-orders

This call is not intended for the press or for reporting purposes.
Testing Resources Available through SDDOH

• Specimen collection supplies
• Saliva Testing with Vault Health/Rutgers Laboratory
• BinaxNOW antigen tests
• Quidel QuickVue At-HOME OTC COVID-19 Tests
• State public health laboratory testing:
  – Diverse molecular testing opportunities
  – Variant sequencing
  – Wastewater testing  **Coming Soon**
• Please contact the SDPHL for details:
  – Laurie.Gregg@state.sd.us

This call is not intended for the press or for reporting purposes.
SARS-CoV-2 Antigen Testing: Abbott BinaxNOW

• SDDOH continues to stock Abbott BinaxNOW COVID-19 Antigen test cards.

• For questions about BinaxNOW availability, please contact the following:
  – K-12 Schools: Joe.Moran@state.sd.us
  – Childcare Providers: Laura.Nordbye@state.sd.us
  – Long-term Care: Denise.Broadbent@state.sd.us
  – Healthcare: Laurie.Gregg@state.sd.us
  – Higher Education: Laurie.Gregg@state.sd.us
  – Businesses/Pharmacies: Leanne.Nicholls@state.sd.us

• SDDOH continues to accept requests for BinaxNOW antigen cards
  – Joan.Adam@state.sd.us
  – Tim.Southern@state.sd.us

• Inquiries for BinaxNOW resources can also be directed to:
  – Dorothy.Ahten@abbott.com

This call is not intended for the press or for reporting purposes.
Quidel QuickVue COVID OTC Test

Quidel QuickVue OTC COVID Test:
✓ Series of two (2) tests.
✓ Can be performed on symptomatic and asymptomatic individuals.
✓ Does not require a CLIA Certificate of Waiver to perform the test.
✓ Does not require a prescription or medical order.
✓ Does not require an instrument, meter, or smart device to perform the test.
✓ Takes approximately 10 minutes to complete.
✓ Specimens can be self-collected by individuals ≥14 years of age.
✓ With adult guidance, the test can be performed on individuals ≥2 years of age.
✓ Results should be reported to the individual’s physician.

This call is not intended for the press or for reporting purposes.
B.1.617.2 (Delta variant) is now the dominant SARS-CoV-2 variant in the United States and South Dakota.

SDPHL asks that our healthcare partners ensure that residual specimens from individuals that test positive for SARS-CoV-2 are submitted promptly to the SDPHL for sequencing.

If a patient tests positive for SARS-CoV-2 using an antigen test, or any other test that does not require swab collection in VTM, please collect a second swab sample in VTM for sequencing.

This call is not intended for the press or for reporting purposes.
SDPHL Laboratory Listserv

- SDPHL uses SDLABLIST to distribute Lab Alerts.
- Lab Alerts provide updates to existing testing programs, announce new testing programs, or alert you to discontinuation of testing programs.
- Lab Alerts are also used to notify the statewide clinical laboratory community about opportunities for:
  - Infrastructure development
  - Training and education
  - Supply availability

This call is not intended for the press or for reporting purposes.
SDPHL Laboratory Listserv

- SDPHL will use the Laboratory Listserv (SDLABLLIST) extensively in the coming months.
- SDPHL will communicate several opportunities including:
  - South Dakota Clinical Laboratory Enhancement Program (SD-CLEP)
  - Quidel QuickVue OTC COVID-19 test availability
  - Workforce development
- You can join the SDLABLLIST anytime!

This call is not intended for the press or for reporting purposes.
Long Term Care
Disease Impact & Vaccine Status – United States as of 07.25.21. Data reported by nursing homes to the CDC’s National Healthcare Safety Network (NHSN) system COVID-19 Long Term Care Facility Module.
