COVID-19 Vaccination Plan

South Dakota Department of Health

February 16, 2021

We will begin in just a few moments. Thanks!

*Information is current as of 02.15.2021*

*Not intended for press or for reporting purposes.*
This is an **emerging, rapidly evolving situation**. Information in this presentation is current as of February 15, 2021. Please check the South Dakota Department of Health website for the most current information and guidance.

</thead>
<tbody>
<tr>
<td>This Weeks 1(^{st}) dose shipments</td>
<td>15,125</td>
</tr>
<tr>
<td>This Weeks 2(^{nd}) dose Shipments</td>
<td>17,000</td>
</tr>
<tr>
<td>Doses At Pharmacy</td>
<td>11,582</td>
</tr>
<tr>
<td>Second Dose to be given this week</td>
<td>11,150</td>
</tr>
</tbody>
</table>

*Not intended for press or for reporting purposes.*
Weekly 1st Doses Projected

Pfizer 9,360

Moderna 8,300

Not intended for press or for reporting purposes.
Bonus Doses

Pfizer vaccine yields 6 doses – this will be a label change

Moderna vaccine may yield 1 or 2 extra doses

**DO NOT POOL VACCINE FROM MULTIPLE VIALS**
<table>
<thead>
<tr>

</tbody>
</table>

Due to limited allocation of the vaccine, the South Dakota Department of Health will use COVID-19 infection rates and will follow recommendations from the Advisory Committee on Immunization Practices (ACIP) to guide which counties will receive the vaccine first.

Note: Tribal vaccine allocation & administration is handled by the IHS Veteran vaccine allocation & administration is handled by the VA

Janssen/Johnson & Johnson Vaccine

• Have applied for EUA
• FDA to meet on February 26
• Viral Vector vaccine
• 5 dose vials

Not intended for press or for reporting purposes.
Training Update
New CDC Homebound Guidance is live:

https://www.cdc.gov/vaccines/covid-19/clinical-considerations/homebound-persons.html

Not intended for press or for reporting purposes.
Storage and Handling During Transport:

A punctured vial may be transported from one home to another by the same health care professional if the cold chain is properly maintained.
Storage and Handling During Transport:

A partially used vial **cannot** be transferred from one provider to another or across state lines.

Guidance can be accessed at: [https://www.cdc.gov/vaccines/covid-19/clinical-considerations/index.html](https://www.cdc.gov/vaccines/covid-19/clinical-considerations/index.html)

Not intended for press or for reporting purposes.
Storage and handling updated info/resource:

- USP Tool Kit-resources for updated information.
- COVID-19 Vaccine Handling Toolkit (usp.org)
Moderna Webinar:
• February 17 at 12:00 PM CST | Register

“Keys to Storing and Handling Your Vaccine Supply”

• Training Video:  
  www2.cdc.gov/vaccines/ed/shvideo/
Follow up on Question from last week....

- Currently the CDC supports use of antipyretic or analgesic meds (e.g., acetaminophen, ibuprofen) **AFTER VACCINATION TO TREAT SYMPTOMS** from an mRNA COVID-19 vaccine.

- **Routine use of prophylactic acetaminophen before or after vaccination with an mRNA COVID-19 vaccine is not recommended** until we know more about the impact on immunogenicity.49
Follow up on Question from last week....

• **Pfizer-BioNTech during storage**  
  Minimize exposure to room light and avoid exposure to direct sunlight and ultraviolet light.

• **Moderna COVID-19 Vaccine**  
  Store the original carton to protect from light. Avoid exposure to direct sunlight.
American College of Obstetrics and Gynecology recommendation

- Offer vaccine to pregnant individuals who meet criteria for vaccination based on ACIP-recommended priority groups.

- Offer vaccine to lactating individuals when they meet criteria for receipt of the vaccine based on prioritization groups outlined by the ACIP.
Advisory Committee on Immunization Practices (ACIP)

- No recommendation for routine pregnancy testing before receiving COVID-19 vaccine.

- Those trying to become pregnant no need to avoid pregnancy after mRNA COVID-19 vaccination.
Six Ways to Help Build COVID-19 Vaccine Confidence

1. Encourage leaders in your family, community, or organizations to be vaccine champions.
2. Have discussions about COVID-19 vaccines where people can openly discuss their views and ask questions.
3. Share key messages through multiple channels that people trust and that promote action.
5. Learn more about finding credible vaccine information.
6. When vaccine is offered to you, make visible your decision to get vaccinated and celebrate it!
Credible Sources:

CDC’s vaccines safety site is one of WHO’s 20 English language certified web sites.

• The Immunization Action Coalition suggests questions you should ask
• The National Network for Immunization Information (NNii) suggests questions to ask when evaluating information.

• The University of California San Francisco’s Evaluating Health Information page lists “Red Flags” every consumer needs to know.

• The Medical Library Association translates medical jargon (Medspeak) into language everyone can understand.

*The Internet does not replace a discussion with a healthcare professional.*
CDC COVID-10 Vaccine Communication Toolkit
https://www.cdc.gov/vaccines/covid-19/health-systems-communication-toolkit.html

Resources in Multiple Languages

- https://covid.sd.gov/ESL.aspx
COVID19 Vaccine Finder Update

• When vaccine is more widely available, providers will be notified that the VaccineFinder public-facing website will be turned on to show COVID-19 vaccination locations.

• This will allow the public to know where they can go to receive a COVID-19 vaccination. Providers will be able to choose whether their location is displayed on the website.

• Specific inventory information will not be available to the public.
VaccineFinder (VF)Resources:

• If you did not receive VF registration e-mail, contact: eocevent522@cdc.gov
  • (check your spam folder)

• Onboarding emails will come from: vaccinefinder@auth.castlighthealth.com
  • (check your spam folder)
Healthcare providers are **required by law to report** to **VAERS**

- Any adverse event listed in the [VAERS Table of Reportable Events Following Vaccination](#) that occurs within the specified time period after vaccination

- An adverse event listed by the vaccine manufacturer as a contraindication to further doses of the vaccine

Healthcare providers are **strongly encouraged to report**:

- Any adverse event that occurs after the administration of a vaccine licensed in the United States, whether or not it is clear that a vaccine caused the adverse event

- Vaccine administration errors
A reminder from the CDC......V-safe

• Please continue to promote the v-safe after vaccination health checker. Ask vaccination providers in your jurisdiction to:
  • Hand out the v-safe information sheet to vaccine recipients
  • Encourage vaccine recipients to register for v-safe
