COVID-19 Vaccination Process
for South Dakota Residents

1. Person identifies which priority group* they're in (A-E) & registers with healthcare system assigned to their county to be contacted when vaccine is available.

2. Vaccination time/date is scheduled with provider (when doses are available).

3. 1st dose of vaccine is administered to patient.

4. 2nd dose is scheduled with provider (21 or 28 days later depending on brand)**

5. 2nd dose of vaccine is administered to patient.

*Priority groups are established by the SD Department of Health.
**2nd dose must be from the same manufacture as 1st dose.
