Current

Definition: Overall Facility Status

- **Green:** Accepting Patients
- **Orange:** Resource limitations exist
- **Red:** Cannot admit patients.

Do Not Change Bed Capacity Section. Click on Save when done.

Bed Capacity: Neg Flow Isolation: Total number of staffed negative airflow isolation beds. These provide respiratory isolation. NOTE: This value may represent available beds included in the counts of other types.

Comment:

Bed Capacity: Operating Room: Total number of staffed operating rooms which are equipped and could be made available for patient care in a short period of time.

Comment:

Bed Capacity: Pediatric ICU: Total number of staffed pediatric ICU beds. Similar to adult ICU beds, but for patients 17-years-old and younger.

Comment:

Bed Capacity: Pediatrics: Total number of staffed pediatrics beds. These are ward medical/surgical beds for patients 17-years-old and younger.

Comment:

Bed Capacity: Psychiatric: Total number of staffed psychiatric beds. These are ward beds on a closed/locked psychiatric unit or ward beds where a patient will be attended by a sitter.
