

The South Dakota Department of Health presents:

Leveraging CHWs in South Dakota to Improve Program Outcomes

This webinar will provide examples of the usage of Community Health Workers in two organizations across South Dakota, Sanford Webster Medical Center and SDSU Extension. Representatives from both organizations will share their experiences incorporating CHWs into their teams, including how CHWs were identified, trained, and what their job duties included. Additionally, the impact CHWs have had on their program outcomes will be discussed.
