Why is this problematic?
Tobacco use is a behavior that contributes to the leading causes of morbidity and mortality among youth and adults. Habits are established during childhood and adolescence, extend into adulthood, and are interrelated and preventable. 90% of adult smokers began at or before age 18, and 5.6 million kids alive today will die prematurely from smoking-caused disease unless current trends are reversed.

SMOKING (by grade)

- Percentage of students who smoked cigarettes on one or more of the past 30 days
- Percentage of students who ever tried cigarette smoking, even one or two puffs
- Percentage of students who smoked a whole cigarette for the first time prior to age 13
- Percentage of students who smoked cigarettes on school property on one or more of the past 30 days
- Percentage of students who smoked cigars, cigarillos, or little cigars on one or more of the past 30 days
- Percentage of students who have ever seen or heard the slogan “Tobacco Rethink It. Seriously.” or “Rethink Tobacco” on posters, TV, the Internet, or the radio

ELECTRONIC VAPOR (by grade)

- Percentage of students who have ever used an electronic vapor product
- Percentage of students who used an electronic vapor product on one or more of the past 30 days

ALL TOBACCO (by grade)

- Percentage of students who currently use tobacco (current cigarette, smokeless tobacco, cigar, or electronic vapor product use on at least 1 day during the 30 days before the survey)

SPIT TOBACCO (by grade)

- Percentage of students who used chewing tobacco or snuff such as Redman, Levi Garrett, Beechnut, Skoal, Skoal Bandits, or Copenhagen, during the past 30 days
- Percentage of students who believe that smokeless tobacco is safer than cigarettes

Unintentional Injuries

- Percentage of students who have ever seen or heard the slogan “Tobacco Rethink It. Seriously.” or “Rethink Tobacco” on posters, TV, the Internet, or the radio
SMOKING TRENDS

Percentage of students who smoked cigarettes on one or more of the past 30 days

SPIT TOBACCO TRENDS

Percentage of students who used chewing tobacco or snuff such as Redman, Levi Garrett, Beechnut, Skoal, Skoal Bandits, or Copenhagen, during the past 30 days

What works?
An evidence-based, coordinated effort works. Establish comprehensive smoke-free policies and social norms, promote and help tobacco users to quit, and prevent non-users from starting. Programs that are comprehensive, sustained, and accountable have been shown to reduce smoking rates and tobacco-related deaths and diseases.
