

**DAILY MONITORING LOG:** (Name) \_\_\_\_\_

(Phone) \_\_\_\_\_

Take your temperature twice daily for 21 days after returning from an Ebola-affected country or other exposure.

Mark the date, time you took your temperature (mark whether it was AM or PM), and temperature.

If you develop a fever (>100.4°F, 38.0°C) note your other symptoms and immediately call the **South Dakota Department of Health at 800-592-1861** and seek medical attention.

Day	Date	Time Taken	Temperature
1		_____ AM	_____ °F
		_____ PM	_____ °F
