

South Dakotans see
Alarming Increases!

Syphilis.

Stop the spread.

FAST & FREE
CONFIDENTIAL
TESTING.

KNOW YOUR STATUS, GET TESTED!

**MANY PEOPLE DON'T KNOW
THEY'RE INFECTED...**

SYMPTOMS can go unnoticed, be painless,
and be mistaken for the flu or fatigue.

WITHOUT TREATMENT, syphilis can
spread to the brain, nervous system or eyes,
or cause long-term damage to heart, nerves,
bones, joints & liver.

Ask your partner to get tested too.
Without treatment, you can infect each other
again and again.

- 1** Many symptoms are sneaky. You may not realize you are infected, and some STDs can even be spread from simple **SKIN TO SKIN** contact.
- 2** If you think you may have an STD or have had unprotected sex, get tested! Know your status.
- 3** Most tests are simple and non-invasive.
- 4** If you are worried about confidentiality, talk to a counselor. Call **800-592-1861**.
- 5** You can get tested at any clinic, doctor's office, or medical facility in South Dakota.
- 6** Testing is available for **FREE**, or on a sliding fee scale at South Dakota's full service family planning agencies.
- 7** For testing and counseling for HIV/AIDS and other STDs, call **800-592-1861** or visit a testing site near you.
- 8** STDs are dangerous. If you are sexually active, you are at risk. Be responsible. Talk with your partner(s) and get tested.
- 9** **Know your status.** Get tested!
It's the only way to know if you have an STD.
- 10** The risk is real. Reduce your risk.
