

**SD Board of Pharmacy Meeting Minutes**  
**September 24, 2020 1:00 p.m. CST**  
**South Dakota Board of Pharmacy Zoom Conference**  
**4001 W. Valhalla Blvd Suite 202, Sioux Falls, SD 57106**

**Board Meeting was held via Zoom Conference**

**Board Members Present:** President Lenny Petrik, Diane Dady, Tom Nelson, Cheri Kramer, and Dan Somsen

**Board Staff Present:** Executive Director Kari Shanard-Koenders, PDMP Director Melissa DeNoon, Inspectors Paula Stotz, Carol Smith and Tyler Laetsch, Secretary Rhea Kontos.

**Attendees Present:** Amanda Bacon, Joe Bergsmith, Justin Manning, Lori Ollerich, Lorri Walmsley, Dana Darger, Denise Frank, Jeff Wigfield, Melissa Goff, Christine Burg, Lauren Paul, Rob Geddes, Mike Duncan, Laura Stoebner, Rebecca Wahrmund, Madison Hall, Dan Hansen, Jeremy Daniel, Ron McNamara, Jessica Adams, and Joel Kurzman.

**A. Call to Order and Introductions**

Meeting was called to order at 1:00 p.m. by President Petrik who read the Board of Pharmacy mission statement. Board Members, Board Staff, and meeting attendee introductions followed. Roll was called, and a quorum was in attendance.

**B. Consent Agenda**

The President reviewed the consent agenda noting any items could be removed for discussion. Dan Somsen made a motion to approve the consent agenda; motion was seconded by Cheri Kramer. A voice vote was taken, and motion passed (5-0).

**C. Staff Reports**

1. Staff Reports - Kari Shanard-Koenders, R.Ph., M.S.J., Executive Director

The Executive Director reported:

- The following Rule changes were passed; 1. Immunization Chapter ARSD 20:51:28 which provided for all immunizations to be completed based upon a protocol or prescription. Immunization certification moved to one-year increments., 2. Dialysate delivery to homes via a prescription by wholesalers as opposed to pharmacies due to high volume pallets which need to be delivered by trucks. 3. Intern ratio increased from one pharmacist to two. LRC is looking for consistency throughout the statutes due to the change in term changes being requested, i.e. Registered. Another rules hearing will be needed. After the legislative session, if 36-11 changes are passed, we will be able to again promulgate.
- FDA has a new M.O.U. on compounding. It has not been finalized and we have one year to sign if the Board agrees. Final version will be out soon. The SD BOP has submitted requested changes through NABP comments. Board member, Cheri Kramer, commented that she thinks that the FDA would like the Pharmacy boards to police 503A compounding. APC is affording opportunity for meeting so that they could explain what the FDA is pursuing.
- Covid-19 updates: Pharmacists and pharmacy staff are now considered front-line workers and in that they would be considered first in terms of receiving a Covid19 vaccination, but not all health care

workers will receive vaccine in Phase 1, which will be quantity dependent. Currently SD has nearly 1000 pharmacists and interns available to administer immunizations.

- Pfizer is first to move ahead with a Covid19 vaccine. Challenges remain with the -70C storage, reconstitution, and two dose requirement. Moderna will likely be second to market with their product which is also a two-dose product, but storage is -20C and it does not require reconstitution. Johnson & Johnson may be next with a single dose vaccine which does not require reconstitution and will be stored at regular refrigerator temperature. They are approaching the Stage 3 clinical trials at present. Astra/Zeneca and many other manufacturers have trails ongoing.
- NABP has been working with the CDC and Department of Defense. The distribution contract was given to McKesson to move vaccines to the chain pharmacies. The state stockpile will receive vaccine which will be distributed to the health systems. Details are at the federal level in terms of who gets vaccines first such as those working in health care and those in long-term care.
- The Tyler, Melissa and I are presenting at the SDPHA Annual Meeting on September 24, 2020.
- This meeting is Board member, Diane Dady's last meeting. Diane was a past board president and board staff have appreciated her good common sense. Diane was thanked for her excellent service. Diane Dady thanked everyone and appreciated the opportunity to serve.

## 2. Inspector Reports

### a. Tyler Laetsch

- Pharmacies partly open/drive through/curb side/ delivery/mail out
- Hours of operation changes
- Vaccinations resuming and changing
- Hydroxychloroquine questions from pharmacies
- Pharmacies and clean room/hood reports, read them and use them as well as staff training
- Several calls about fraudulent calls to pharmacies with Prometh/codeine scripts
- COVID testing, retail and at NH
- Hospital remodels
- Phone calls about provider offices and nonresident pharmacies not formal complaints
- Call and schedule all inspections and constant communication with pharmacists
- 87 virtual inspections, 15 in person inspections spaced out 1 – 2 per week due to contact tracing, ease of changing schedule for both parties, and ease for the pharmacy knowing I have not been at multiple locations during the pandemic.

### b. Paula Stotz, Inspector

Reported the following items:

- During this quarter: 14 Virtual inspections & 10 In person inspections
- 1 pharmacy had a disposable syringe in an open Kenalog vial and reusing for compounding
- Completed several online trainings and webinars
- A few pharmacies are not including controlled substance prescriptions in the Will Call area on their annual or biennial inventory. Several have now begun to include them. Noted that wearing masks with shields is a hot endeavor
- Many pharmacies ensure all the required information is on a controlled substance prescription prior to filing prescriptions away, a few pharmacies are not adding the provider's address on phoned-in controlled substance prescriptions.
- Many pharmacies have begun to implement USP 800 by either labeling the shelving of the hazardous drugs or placed them to a separate area of the pharmacy. Most pharmacies have a dedicated hazardous drug counting tray. A few pharmacies use appropriate hazardous drug agents to deactivate,

decontaminate, and clean the hazardous drug counting tray. Ex: Hydrogen peroxide wipes followed by alcohol wipes, others just using alcohol wipes. Some pharmacies have implemented the use of nitrile gloves when handling hazardous drugs, and others have begun using chemotherapy tested gloves.

c. Carol Smith, Inspector

Reported the following observations/occurrences:

- During this quarter: 9 virtual inspections, 1 Wholesale inspection and 19 in person inspections
- Attended webinars and the 795 & 797 Forum Zoom meeting.
- Many of the pharmacies have not been including the controlled substance prescriptions that have been filled but not yet picked up by patients, in the biennial inventory. It was recommended that if there are not controlled substance prescriptions in the “will call” bin this should be documented on the biennial inventory.
- A suboxone prescription was found that did not include a medical condition.
- Some pharmacies are still only cleaning their NIOSH trays with alcohol and not using an oxygenating agent to decontaminate/deactivate.
- There were four pharmacies where no one was wearing a name tag.
- Several pharmacies are not circling the quantity, signing or initialing and dating the controlled substance invoices. The CII and CIII-V invoices were not filed separately and in chronological order.

3. PDMP Report

Director Melissa DeNoon reported the following updates:

- PMPi Hub sharing set-up with WY and PR (33 total).
- Statewide Gateway Integration Project: 13 HCEs ‘Integration Request Received’, 5 HCEs ‘Credentials Sent’, and 20 HCEs ‘In Production’ including 5 new:
  - o Center for Family Medicine – Sioux Falls
  - o Prairie Lakes Healthcare System – 2 EHR platforms – Watertown
  - o Dunes Surgical Hospital – Dakota Dunes
  - o Center for Neurosciences Ortho Spine – Dakota Dunes
- License Integration Project – test files completed; next steps to begin live uploads.
- MedDrop Drug Take-Back Program: 83 receptacles in place; added HyVee’s remaining 6 SD sites (all in Sioux Falls) to Trilogy’s ‘Automatic Reload’ program.
- SD DOH Opioid Abuse Advisory Committee Virtual Meeting – presented “SD PDMP Update”.
- Trends in 2020 opioid prescriptions dispensed to SD patients reviewed.
- SD PDMP utilization by pharmacists and prescribers via the web portal and Gateway integrations discussed.

**D. Complaints, Investigations, Disciplinary Actions, Loss/Theft Reports**

The following were reported by Paula Stotz, Carol Smith, and Tyler Laetsch and discussed.

1. DEA Form 106---Loss in Transit from QuVa to Avera McKennan
2. DEA Form 106 – Loss in Transit CVS Louise Ave SF to patient
3. DEA Form 106 – Landmann-Jungman Memorial Hospital Pharmacy employee loss
4. DEA Form 106 – Safeway Mt. Rushmore Rd, miss count
5. DEA Form 106—Regional Home Health Hospice misplaced expired meds where nursing pulled expired meds out of drawer.
6. DEA Form 106—unexplained accounting loss of controls in compounding (nonresident)
7. Complaint 2020-0004---Prescriber E prescribed incorrect Rx to pharmacy and it was filled, patient then called provider to ask and provider stated Rx was prescribed to her in error.
8. DEA Form 106--- Sioux Falls Specialty Hospital employee theft

**D. SD Pharmacists Association** – Lori Ollerich, Pharm D, SDPHA President, Dana Darger, R.Ph., SDPHA President Elect

1. Activity Report – the following items from the SDPhA report were highlighted by Ms. Ollerich:
  - a. Supreme court case; Rutledge V. PCMA is rescheduled for October 6, 2020. Eight justices could be an issue. If Arkansas wins this case, it does not end DIR fees or unfair reimbursement, but it could give states the authority to determine whether these practices are detrimental – saying whether states indeed have the right to regulate PBMs.
  - b. This legislative session will utilize a new communications platform called Voter’s Voice. This tool will allow for communication such as an opt-in for text messages. These messages will contain ready-made tools to quickly communicate with both state legislators and congressional delegation when it matters most. Platform will roll out shortly after convention.

**F. Other Reports**

1. SDSU College of Pharmacy – Interim Dean and Professor Dan Hansen, Pharm D.
  - One third of the way through the first semester. All labs in person. PPE in place. All is working out.
  - 70 new P1 students with a total of 287 students P1-P4. 65 students is the placement goal.
  - 75 students graduated in a virtual ceremony. Dan noted a high residency rate, a continuing trend.
  - In July 2020, the respiratory care program at Dakota State University transitioned to the College of Pharmacy and Allied Health Professions, finding a home in the Department of Allied and Population Health. Currently a 2-year program but will be a 4 year in the future.
  - A Master of Public Health is in development and seeking accreditation.
  - Searching for FT Dean, Educational Coordinator, Program Assistant, Research Associate and Instructor for Respiratory Care Program.
  - Grant funding is up. \$1.6 million spread over 3 departments.
  - Dr. Yen-Ming Huang was selected as the 2020 ACH Healthcare Communication Virtual Research Forum Humanities and Social Sciences Scholarship Award recipient.
  - Philip Jacobson, Hannah Brockmeier, and Zach Muller represented SDSU in the ACCP Clinical Pharmacy Challenge.
2. SD Society of Health System Pharmacists (SDSHP) – Jeremy Daniel, Pharm D, BCPP, BCPS (after break)
  - Adjusting formatting and going virtual: utilizing “Lecture Panda” which will bring in CE from other states.
  - October is Pharmacy Month and planning ‘live’ events such as a Pumpkin Carving Contest.
  - Midyear is coming up with students and residents attending for free and reduced costs for members.
  - Residency grant is open.
  - Considering having annual meeting be virtual.
3. SD Association of Pharmacy Technicians (SDAPT) – John Thorns, CPhT
  - No report. No representation present at board meeting. Kari is presenting at their annual continuing education conference on October 3, 2020

**Break**

- Full Board meeting resumed at 2:25 p.m.

## G. Old Business

### 1. Rules Revisions – Tyler

- October 13<sup>h</sup> is the date that the passed rules go in effect. One: 2 interns to 1 pharmacist. Two: Dialysate Solution from wholesalers. Three: Added 2<sup>nd</sup> section to the Immunization chapter to make the 20hour/CPR required for qualified applicants and change to annual rather than a 2 year with 1 hr CE toward immunizations each year. Added interns may immunize under supervision of a pharmacist that is authorized to immunize as well. We also changed the reporting requirement from mandatory reporting to patient’s primary care provider to now pharmacies must report immunizations to SDIIS.

### 2. COVID-19 Testing Policy Statement Revision—Kari

- Drive through testing has become a newer model for Covid19 testing with Walmart and Walgreens moving towards implementing systems. A policy statement has been created in which to cover all types of pharmacy Covid19 testing. Lorri Walmsley comments that she is glad the board is adding a policy statement because she sees more testing coming. Rob Geddes of Albertsons/Safeway said minimal patient contact when they send out a Covid19 saliva test that has a Fed Ex 1-3 day turn around. A sample is good for 56 hours with a 98% accuracy. Joe Bergsmith with Walmart said that their testing model has specific hours for collecting as to not inundate the primary pharmacist on duty. Board member, Cheri Kramer, asked Joe if there is a plan to dispose of PPE after use. Joe replied that yes that there is a process in place with clear instructions. Joe will send full SOP to the board when ready. Joe added that pharmacists and technicians have stepped forward to provide testing and it is not mandatory of their staff. Kari explained the added changes to the policy in yellow with added input on line 3 to add mailed supplied and ‘if applicable’. Line 5: Joe recommended to add “comfortable”. Other board members concurred. Line 7: Pharmacist/Pharmacy reports changes suggested by Tyler. “The pharmacist or testing vendor must report test results to the South Dakota Health Department at [sd.gov/diseasereport](http://sd.gov/diseasereport)”.
- Board member Dan Somsen made a motion to approve new policy statement as revised and discussed during meeting and Cheri Kramer seconded the motion. Voice call was taken; motion passed (5-0).

## H. New Business

### 1. Variance request for Animal Health International Pharmacy, Jeff Wigfield, Pharm. D. Director of Pharmacy Operations, Patterson Companies, Inc.; Ron McNamara, Operations Manager

- Jeff Wigfield presented the requested variance from Administrative Rule 20:51:29:02 requiring the registration of pharmacy technicians to label product for final verification by a registered pharmacist. The skills and training needed to label stock bottle of veterinary medications does not rise to the level of a registered pharmacy technician and these are mostly warehouse workers. Tyler has inspected the facility and suggested the variance.
- Board member Diane Dady made a motion and Dan Somsen seconded the motion. Voice roll call was taken; motion passed (5-0).

### 2. Variance request Sanford USD Medical Center – Laura Stoebner, Pharm D.; Mike Duncan, Pharm D.

- Document shared to board members. Laura commented that this allows technicians to verify total quantity after filling with prechecked automated device. The pharmacist has previously approved compounded product and allow only CPhT certified technicians approve whether 20 ml or not.
- Board member Dan Somsen made a motion and Tom Nelson seconded the motion. Voice call was taken; motion passed (5-0).

2. Policy statement—Transfer Rules Clarification -Tyler

- This is meant to clarify the transfer of Rx between pharmacists. The discussion that followed focused on The facsimile component of transmission concerns which was cleared up when Tyler shared 20:51:23:02 which states that the transferring pharmacist or intern must contact the pharmacy receiving the fax to obtain the registered pharmacist and information for required record keeping. Tyler added 4<sup>th</sup> line: The transferring pharmacy must contact the pharmacy receiving the fax to record the pharmacy and pharmacist information.
- Board member Cheri Kramer made a motion to approve new policy statement as revised during meeting and Diane Dady seconded the motion. Voice call was taken; motion passed (5-0)

4. Pharmacist Zamulko Discipline Approval

- Document shared via email to board members regarding signed stipulation. No discussion. Board member Cheri Kramer made a motion and Dan Somsen seconded the motion. Voice vote was taken; motion passed (5-0).

**I. Other Business**

1. Recent Meeting News

- NABP/AACP 83rd Annual District V, Virtual business Meeting August 7, 2020 – Upcoming meetings will be held in 2021 in Winnipeg, Canada, 2022 in Custer State Park with SD as the host state.
- FDA Intergovernmental Meeting on Compounding September 20-21, 2020 – Tyler and Kari attended with the focus on 503b and some 503a (MOU). Tyler learned about manufacturing process. Board member, Cheri Kramer asked about eye drop availability and Kari said it was not mentioned. Cheri has concerns about product availability.

2. Future Board Meeting Dates - all held in Sioux Falls Board Room unless otherwise noted

- December 11, 2020, 9AM – 1 PM, CST
- April 8, 2021, 1PM-5PM, CDT in coordination with the SDSHP 45th Annual Meeting SF
- June 25, 2021, 8AM-12PM CDT (tentative)
- September 16, 2021 1PM-5PM in coordination with SDPHA, Spearfish

**L. Public Comment** – No one spoke.

**M. Adjourn**

Diane Dady made a motion to adjourn the meeting; Dan Somsen seconded the motion. Voice vote was taken, motion passed (5-0). Meeting adjourned at 3:58 p.m.

Meeting adjourned at 3:58 p.m. CST

# SOUTH DAKOTA PRESCRIPTION DRUG MONITORING PROGRAM UPDATE

**SEPTEMBER 24, 2020**

## *What's New at the SD PDMP?*

- PMPi Hub sharing set-up with WY and PR (33 total)
- Statewide Gateway Integration Project: 13 HCEs 'Integration Request Received', 5 HCEs 'Credentials Sent', and 20 HCEs 'In Production' including 5 new:
  - Center for Family Medicine – Sioux Falls
  - Prairie Lakes Healthcare System – 2 EHR platforms – Watertown
  - Dunes Surgical Hospital – Dakota Dunes
  - Center for Neurosciences Ortho Spine – Dakota Dunes
- License Integration Project: Test files approved by Appriss with next steps to begin live uploads
- MedDrop Drug Take-Back Program: 83 receptacles in place; added HyVee's remaining 6 SD sites (all in Sioux Falls) to Trilog's 'Automatic Reload' program

<b>State Stats:</b>
<b>66 Total Counties</b>
<b>43 Counties Have MedDrop</b>
<b>9 Counties Have Pharmacy but no MedDrop</b>
<b>14 Counties Do Not Have a Pharmacy</b>

## *Presentations Given/Events Attended*

- SD DOH Opioid Abuse Advisory Committee Virtual Meeting – presented “SD PDMP Update”

<b>Opioid Prescriptions to SD Patients</b>	<b>RXs</b>	<b>% of all CS RXs</b>	<b>Quantity</b>	<b>Days of Supply</b>
<i>January 1, 2016 - December 31, 2016</i>	599,667	46.57%	39,437,769	9,343,889
<i>January 1, 2017 - December 31, 2017</i>	581,550	47.00%	41,318,924	8,708,079
<i>January 1, 2018 - December 31, 2018</i>	511,271	43.60%	33,876,217	7,532,863
<i>January 1, 2019 - December 31, 2019</i>	472,871	42.00%	29,216,723	6,879,984
<i>January 1, 2020 - January 31, 2020</i>	39,812	41.50%	2,481,877	563,677
<i>February 1, 2020 - February 29, 2020</i>	40,361	42.30%	2,505,614	570,700
<i>March 1, 2020 - March 31, 2020</i>	45,703	40.30%	2,911,281	683,746

**Annual Report  
South Dakota Pharmacists Association  
Activities July 2019 – September 2020**

To Association Members,

The Board of Directors and staff of the South Dakota Pharmacists Association (SDPhA) are pleased to present this year's Annual Report. The report describes the SDPhA's activities from July 2019 through early September 2020. Within this report you will find a brief description of the many activities, projects, and issues pursued by the Association on behalf of members over the past year.

You are invited to examine this report in detail and become familiar with the actions and initiatives developed to support the profession of pharmacy in South Dakota. The Executive Board and staff thank the members of SDPhA for their contributions and support, without which our efforts would not be as successful.

**Coronavirus (COVID-19)**

Communication and offering assistance to our pharmacists and pharmacies anywhere and everywhere we can during this pandemic continues to be a top priority for SDPhA. Pharmacies and pharmacists are critical to the well-being of the citizens of South Dakota, not only in dealing with COVID-19, but also in our residents' ongoing care. We continue to update the COVID-19 resource page on our website which was established early-on in the pandemic. It houses links and resources which address many of the concerns and questions we have received here in the office. We post "news" related information on our Facebook Group page. That includes pertinent updates from CMS, HHS, the FDA, DSS, etc. We continue to send out emails to all as appropriate. We greatly appreciate the strong and open channels of communication with several state agencies, our congressional delegation and the South Dakota Board of Pharmacy on items of concern to pharmacists as well as the public health and safety.

**Key Communications**

For the safety of pharmacists and staff we continue to communicate several key messages which include:

- Heed CDC guidelines as much as possible
- Encourage drive up or delivery
- Frequently clean and disinfect counters, waiting areas and other spaces where public interaction occurs with and EPA-approved disinfectant
- Monitor all staff for sickness regularly. Take temperatures once per shift and send them home if they have symptoms of a respiratory infection
- If you or a staff member have symptoms and require a test, it's imperative your health provider knows you are a pharmacist or pharmacy staff to obtain high priority for testing purposes
- You can find more information regarding pharmacy team exposure on our Covid-19 resource page

**Advocacy and Engagement**

While the initial frenzied pace of the pandemic response has slowed somewhat, we continue to engage with the BOP, South Dakota Department of Health, and other state partners on behalf of pharmacists where appropriate. As the nation prepares for the approval of a COVID-19 vaccine, we continue to work to ensure pharmacists are allowed to provide the vaccine to patients without unnecessary barriers. SDPhA will serve as the state immunization manager's central point of contact for independent pharmacies and and regional chains.

Meantime at the federal level, we remain in close communication with our Congressional delegation, and continue to keep apprised of, and engaged where suitable, in the all the rapidly moving parts on Capitol Hill. Advocacy efforts now focus on maintaining the flexibilities extended to pharmacists by the federal government, while continuing to advocate for change that allows pharmacists to practice to the full scope of their expertise. This has included not only work on emergency provider status, but on immunizations, testing, payment, compounding and funding programs as well. The National Alliance of State Pharmacy Associations (NASPA) also continues to work on our behalf with many of our national partners on matters of concern and importance to pharmacists.

### **National Efforts**

SDPhA remains engaged in a variety of ways in various national efforts on key topics directly impacting our pharmacists such as: COVID-19 related bills, DIR fee relief, PBM reform, pricing transparency, improvements to Medicare, prescription drug misuse and abuse, compounding guidance and provider status. There were many efforts to include some of these topics in Coronavirus legislation, including: DIR fee relief, dispensing requirements, compounding requirements, provider status and scope of practice. The list that follows are the major bills currently related to the aforementioned issues.

#### **H.R 6201 | Families First Coronavirus Response Act**

This bill responds to the COVID-19 outbreak by providing paid sick leave, tax credits, free COVID-19 testing; expanding food assistance and unemployment benefits; and increasing Medicaid funding. There are several sections of the bill which impact Medicare, COVID-19 testing and funding therefor. This bill has 20 related bills. South Dakota's entire Congressional Delegation supported this bill. The Families First Coronavirus Response Act became Public Law No: 116-127 3/18/2020

#### **H.R 748 | CARES Act**

This bill responds to the COVID-19 outbreak and its impact on the economy, public health, state and local governments, individuals and businesses. In terms of healthcare, the act addresses medical supply and emergency drug shortages, access to healthcare for COVID-19 patients, testing and preventative services, support for healthcare providers and many other matters of personal and professional consequence to pharmacists. South Dakota's entire Congressional Delegation supported this bill. This bill has 48 related bills. The CARES Act became Public Law No: 116-136 3/27/2020

#### **H.R 6800 | HEROES Act**

This bill responds to the COVID-19 outbreak and its impact on the economy, public health, state and local governments, individuals and businesses. In terms of healthcare, it establishes a fund to award grants to provide pandemic premium pay for essential workers, modifies and expands the Paycheck Protection Program (which provides loans and grants to small businesses and nonprofit organizations), provides funding and establishes requirements for COVID-19 testing and contract tracing, eliminates cost-sharing for COVID-19 treatments. It also expands several programs and policies including those regarding Medicare and Medicaid, health insurance. This bill narrowly passed the House 5/15/2020. Rep. Dusty Johnson R-SD did not support the legislation. Hearings were held on this bill in the Senate Committee on Small Business and Entrepreneurship 7/23/2020.

#### **H.R 6666 | COVID-19 Testing, Reaching and Contacting Everyone Act**

This bill authorizes the Centers for Disease Control and Prevention (CDC) to award grants for testing, contact tracing, monitoring, and other activities to address COVID-19 (i.e., coronavirus disease 2019). Entities such as federally qualified health centers, nonprofit organizations, and certain hospitals and schools are eligible to receive such grants. In awarding the grants, the CDC shall prioritize applicants that (1) operate in hot spots and medically underserved communities, and (2) agree to hire individuals from the communities where grant activities occur. This bill has 64 co-sponsors and was referred to the House Committee on Energy and Commerce 5/1/2020.

### **H.R. 19 | Lower Costs, More Cures Act of 2019**

This bill provides for certain reforms with respect to the Medicare program under title XVIII of the Social Security Act, the Medicaid program under title XIX of such Act, the Food and Drug Administration and for other purposes. The bill aims to end the so-called “pay-for-delay” tactic regarding generic drugs, place a cap on seniors’ out-of-pocket drug expenses, and increase drug price transparency. There are 25 other bills related to this one. H.R. 19 was referred to the Subcommittee on Antitrust, Commercial, and Administrative Law 12/19/2019. The bill has 146 cosponsors, including Rep. Dusty Johnson.

### **S. 640/H.R. 1034 | Phair Pricing Act of 2019 (Identical Bills)**

This bill requires that certain negotiated prices for covered drugs under the Medicare prescription drug benefit be disclosed at the point-of-sale. Specifically, negotiated prices offered under a prescription drug plan (PDP) must be disclosed at the point-of-sale; the disclosed price must include specified adjustments, payments, and fees that are negotiated with the pharmacy (e.g., dispensing fees) by the PDP sponsor or pharmacy benefit manager. Additionally, the Centers for Medicare & Medicaid Services must establish certain quality measures for PDP sponsors to use when determining incentive payments and adjustments (e.g., performance payments) to pharmacies. The Senate bill currently has 14 cosponsors and was referred to the Committee on Finance 3/4/2019. The House version has 75 cosponsors and was referred to the Subcommittee on Health 2/7/2019

### **S. 2723 | Mitigating Emergency Drug Shortages Act**

This bill aims to increase authority for the U.S. Food and Drug Administration (FDA) regarding enhanced manufacturing reporting requirements and new market-based incentives to encourage drugs in shortage or at risk of shortage. We know this legislation is of particular importance to SDSHP, and SDPhA is committed to working with SDSHP on these issues. This legislation has been introduced, and referred to the Committee on Health, Labor, and Pensions. 10/29/2019. The bill has four cosponsors.

### **H.R. 789/H.R. 803/S. 988 (Identical Bills) | Improving Transparency and Accuracy in Medicare Part D Spending Act**

This bill prohibits Medicare prescription drug plan sponsors from retroactively reducing payment on clean claims submitted by pharmacies. S. 988 has been referred to the Committee on Finance. Identical House bill H.R. 803 was referred to Subcommittee on Health 3/1/2019. The bill has 27 cosponsors.

### **H.R. 1332 | Fair Care Act of 2019**

This bill is intended to address the high costs of health care services, prescription drugs, and health insurance coverage in the United States and for other purposes. This is a companion bill to H.R. 803/H.R. 789. The bill was referred to the Subcommittee on Health 2/26/2019.

### **H.R. 1035 | Prescription Drug Price Transparency Act**

This bill would codify Medicare transparency provisions concerning maximum allowable costs for generics and apply them to the Federal Employee Health Benefits Program. It would also establish a MAC appeals process and prohibit PBM requirement to use a PBM-owned pharmacy. Referred to the Committee on Energy and Commerce, Ways and Means, Oversight and Reform 2/7/2019. The bill has 38 cosponsors.

### **H.R. 3528 | Every Prescription Conveyed Securely Act – 115<sup>th</sup> Congress**

This bill generally requires, with specified exceptions, electronic prescribing under the Medicare prescription drug benefit with respect to covered drugs that are controlled substances. The bill was placed on the Union Calendar 6/12/2018. The bill has 51 cosponsors.

### **H.R. 4275 | Empowering Pharmacists in the Fight Against Opioid Abuse Act – 115<sup>th</sup> Congress**

This bill requires the Department of Health and Human Services (HHS) to develop and disseminate training programs and materials on: (1) the circumstances under which a pharmacist may refuse to fill a controlled substance prescription suspected to be fraudulent, forged, or indicative of abuse or diversion; and (2) federal requirements related to such refusal. HHS must seek input from relevant stakeholders. This bill passed the House 6/12/2018, and was received in the Senate, and referred to the Committee on Health, Education, Labor and Pensions 6/13/2018.

### **S. 2553 | Know the Lowest Price Act of 2018 – 115<sup>th</sup> Congress**

This bill prohibits a prescription drug plan under Medicare or Medicare Advantage from restricting a pharmacy from informing an enrollee of any difference between the price, copayment, or coinsurance of a drug under the plan and a lower price of the drug without health-insurance coverage. This bill became public law 115-262 on 10/10/2018. Senators Thune and Rounds supported the bill.

### **S. 2554 | Patient Right to Know Drug Prices Act – 115<sup>th</sup> Congress**

This legislation would prohibit gag clauses in Health Insurance Marketplace plans as well as Employee Retirement and Income Security Act (ERISA) plans—employee benefit plans offered by private sector employers. This bill became public law 115-263 on 10/10/2018. Senators Thune and Rounds supported the bill.

### **H.R. 592/S. 109 | Pharmacy and Medically Underserved Areas Enhancement Act – 115<sup>th</sup> Congress**

Amends Title XVIII of the Social Security Act to provide for coverage under the Medicare program of pharmacist services. Referred to the Subcommittee on Health. 2/1/2017. Senators Thune and Rounds have graciously agreed to co-sponsor this important legislation. The House version has 296 cosponsors. The Senate version has 55.

### **H.R. 1038 / S. 413 | Improving Transparency and Accuracy in Part D Drug Spending Act – 115<sup>th</sup> Congress**

Similar/Companion bills dealing with DIR fees. Introduced in the Subcommittee on Health 3/9/2017. Senators Thune and Rounds have agreed to co-sponsor this legislation.

### **Legislative Update (2020 Session)**

Even in years where we do not introduce legislation, there are plenty of bills to monitor, support or defeat. Please see Bob Riter and Lindsey Riter-Rapp's Lobbyist Report for more information.

### **Legislative Flu Shot Clinic**

The Legislative Research Council once again reached out to SDPhA to ask us to assist lawmakers by providing influenza immunizations. We encourage them all to receive their vaccinations prior to heading to Pierre, but we are happy to be there for those who look to us to help them. A huge thank you to Kristen Carter, SDPhA Vice President and Pharmacy Manager at Dakotamart in Pierre, who took time out of her busy schedule to represent the profession and provide protection for our lawmakers. About a dozen legislators and others stopped by for their flu shot. We had a lot of great conversations about the importance of immunizations, and other pharmacy related topics. It's a unique opportunity to showcase one of the many ways pharmacists are, "More Than a Count." We received a very nice thank you from House and Senate leadership, and look forward to assisting if asked again next year.

## **Legislative Days**

If it's been a while since you joined us for Legislative Days, plan now to join us (we hope) in 2021. We had a truly fantastic time this year, with nearly 40 SDSU Pharmacy students participating in the event Jan 28-29. We had an exceptional opportunity for everyone to visit with lawmakers Tuesday evening during dinner at RedRossa. Sen. V.J. Smith-R, District 7, gave a brief look at the legislative process, and encouraged the students and professionals present to reach out to their lawmakers, and get involved. Sen. Helene Duhamel-R, District 32 (Senate Health and Human Services Committee) and Sen. Wayne Steinhauer-R, District 9 (Co-Chair, Senate Health and Human Services Committee), as well as Majority Whip Sen. Jordan Youngberg (R) District 8, also spent considerable time with the group answering questions and engaging in conversations about issues of importance to the profession. Kari Shanard-Koenders, Executive Director, Board of Pharmacy provided an update from the BOP. Likewise, Dean Jane Mort briefed the group on what's happening around SDSU. Robert Riter and Lindsey Riter-Rapp, SDPhA lobbyists, and Amanda Bacon, SDPhA executive director discussed the various bills and legislation SDPhA was working on your behalf in the early stages of South Dakota's 95<sup>th</sup> Legislative Session.

Wednesday morning, SDSU students set up in both the House and Senate lobbies of the Capitol to provide wellness checks to those who wanted them. This is always such a fantastic opportunity to show a much broader range of the great work you all do each day. It's such a unique chance for students to hone their skills by providing wellness checks, while also having the option to sit-in on various committees that morning, and venture onto the House and Senate floors to meet their lawmakers. There's nothing like learning the legislative process first-hand!

Practicing pharmacists, if we are able to gather, we strongly encourage you to join us next year – your involvement further showcases, for students and lawmakers alike, the importance of having a strong presence at the table during legislative session. Remember – if you're not at the table, you're often on the menu! Legislative Days is set for Jan. 26-27, 2021.

## **Other State Issues**

SDPhA continues to monitor activity on a variety of fronts regarding potential legislation. Bob Riter and/or Lindsey Riter Rapp, SDPhA lobbyists, will speak to some of the issues we anticipate this coming legislative session at the first business meeting.

## **Commercial and Legislative Fund**

The Commercial and Legislative Fund is separate from the SDPhA general accounts. It is used to support the legislative work we do, and relies nearly exclusively on your contributions. Lobbying is an expensive, but necessary function, so the importance of this fund cannot be overstated. It is critical, and assists SDPhA in the protection and promotion of the profession during the Legislative Session. Expect to see more from us regarding this fund, and the work we do with it in the coming days. It's imperative that you know we are at a pivotal point with the C&L fund, and that we need your support to continue to ensure we have a seat at the table in Pierre. You can expect to see reminders in your email and on social media to contribute. You can easily contribute at [sdpha.org](http://sdpha.org), or send a check to SDPhA, P.O. Box 518, Pierre, SD 57501. We need to have the financial resources available to fully swing into action on bills and policy that affect pharmacists in South Dakota. During 2019/2020, we expended around \$11,000 to fund lobbying activities. This year contributions were again well short of the needed funds to continue to support a lobbyist. Simply put, we can't retain our Lobbyist, Bob Riter and his partner Lindsey Riter-Rapp without this support. ***Thank you to all those who have, and continue to support our efforts!***

## **Rutledge v. PCMA**

In mid-February, SDPhA had the opportunity to sit down with Jason Ravensborg, Attorney General for South Dakota, to urge his support of the amicus brief from the National Association of Attorneys

General in this case. SDPhA signed on to a similar brief submitted to the court on behalf of state and national pharmacy associations.

Bob Riter, SDPhA lobbyist and legal counsel; Amanda Bacon, SDPhA executive director; Kristen Carter, SDPhA Vice President, and Eric Grocott, a past SDPhA president presented information to Ravensborg about the lack of meaningful PBM oversight, and how it impacts patients every day. We also talked about the laws we have worked to pass in recent years, and how the very practices those laws prohibit continue seemingly unabated. We had a very positive and productive conversation, and we greatly appreciated him spending so much time with us during a particularly busy season for him and his office. We are extremely pleased to report his favorable consideration of our request, and his support in this matter.

The Supreme Court was originally scheduled to hear this case April 27, 2020, however due to the pandemic, the case was rescheduled and arguments will now be heard Oct. 6, 2020. If Arkansas wins this case, it does not end DIR fees or unfair reimbursement, but it could give states the authority to determine whether these practices are detrimental - saying whether states indeed have the right to regulate PBMs.

### **SDPhA By-Laws**

At the 2019 convention in Deadwood, the membership voted to revise the by-laws to bring them up to date with current guidelines for non-profit organizations such as ours, and also to make them more applicable to the organization today. Subsequent to that meeting we discovered an error of omission regarding one of the officers in a list which should contain all the SDPhA officers. Therefore, we bring to you this year an amendment to correct that. In accordance with our by-laws, this amendment was distributed to the membership for consideration at least 15 days before this meeting, and will be presented again during our first business meeting, with a vote on the update taking place at the second business meeting. We encourage you to review the updated document, and welcome your feedback.

### **Education, Communication, Public Affairs and Professional Relations**

#### **Continuing Education**

The Association continues to focus on providing quality continuing education for practitioners. SDPhA continues to work with the SDSU College of Pharmacy to bring you interesting continuing education opportunities at the annual convention and throughout the year. We have also been engaged from time-to-time to assist pharmaceutical companies in getting the word out on local opportunities for informative programs.

#### **Reaching Out**

The Association prepares and delivers Legislative and Association Updates, CE and pharmacy-related information at fall and spring district meetings, in addition to delivering a variety of educational programs at each Annual Convention. The Association continues to work with student pharmacists on the American Pharmacists Month campaign, which helps bring awareness to the state about all pharmacists can do, and how patient care is improved with a pharmacist engaged. SDPhA previously provided SDSU students a grant for, and continues to assist with, pieces related to the, "More Than a Count" campaign. This campaign showcases the profession and SDPhA utilizing traditional and social media platforms to engage both pharmacists throughout the state as well as members of the general public.

#### **The South Dakota Pharmacist**

Communicating with our members quickly and effectively is extremely critical to the success of the Association. The South Dakota Pharmacist continues a quarterly electronic distribution. You can also find it posted with past issues on our website. It always offers 1.5 hours of CE, and provides a source

of communication for the association on rules, legislative issues and education that affect pharmacy practice.

### **Website/Social Media/Email Blasts**

The SDPhA website ([sdpha.org](http://sdpha.org)) continues to be updated and improved. A mass e-mail system is typically utilized when important information needs to be shared.

This legislative session we will also utilize a new communications platform called Voter's Voice. This tool will allow us to communicate with you via different methods of your choosing, including an opt-in for text messages, something many have asked us for. These messages will contain ready-made tools for you to quickly communicate with both state legislators and our congressional delegation when it matters most. We'll roll out this new platform shortly after convention, so keep a close eye on our social media and your email.

We continue to utilize and expand our social media footprint. This growing presence is something we consider vital to our work of representing the pharmacy profession through advancing patient care, enhancing the public awareness, and serving in the best interest of public health and pharmacy. You'll now find us increasing our use of LinkedIn and Instagram, in addition to the Facebook pages many of you already follow.

Here's what's important to know about each platform:

- Our Facebook and Instagram are primarily consumer-driven health messages. These posts are intended to give you easy access to content you can in turn share on your social channels to help engage your patients and the general public.
- The SDPhA Member News and Announcements Facebook Group page is where we share industry news, SDPhA event and meeting information, and legislative updates as warranted.
- LinkedIn gives us an additional forum to gather and share news impacting the pharmacy profession. The page is established. Look for increased messaging there soon.

Please like, follow, share, and engage with us – that's what makes these tools effective.

### **Pharmacists for Healthier Lives**

Pharmacists for Healthier Lives is a campaign that continues to reach patients and the public at large with information about what pharmacy is really all about. It showcases pharmacists as frontline members of the healthcare team, and details how pharmacists ensure better patient outcomes. Through the National Alliance of State Pharmacy Associations (NASPA), all state associations have had a unique opportunity to contribute to the campaign, and weigh in on the content, tone and direction. You'll find we often link to it on our SDPhA Facebook page – it has some great resources your pharmacy can share online too. [pharmacistsforhealthierlives.org/](http://pharmacistsforhealthierlives.org/)

### **SDSU SCAPP/APhA- ASP Chapter**

We continue to work closely with SDSU, and the student pharmacists. The student liaisons have done an amazing job keeping us apprised of activities, and the SDPhA board remains committed to supporting the students in every way possible. This includes activities such as convention attendance (free of charge), rooms for convention and Legislative Days, and support for the Back-to-School Picnic, Pharmacy Days, and American Pharmacists Month activities. We commend them on continuing the successful messaging created as part of the "More Than a Count" campaign, and will continue to work with them on messaging and communication. We believe these activities are an incredible investment in your association's future. The student pharmacists have worked hard to

assist us with this virtual meeting as well, which is greatly appreciated! We also remain a resource for faculty whenever needed, and collaborate on projects whenever possible.

### **Pharmacy Technician University (PTU)**

SDPhA is pleased to continue to offer low-cost access to this online training module. You'll find additional information on it located in your convention packet. SDPhA has now enrolled more than 90 participants. We are one of the first Associations in the nation to work with Therapeutic Research Center (TRC) and PTU in this manner, and are now working with them, and other state Associations to help set up their programs as well.

We are also thrilled to report 8 student participants from the DIAL Virtual program offered in various South Dakota High schools are enrolled in the course for the 2020-2021 school year. We appreciate the pharmacists who have stepped up in communities across the state to work with the DIAL program and these students. This is an exceptional opportunity to introduce the profession into the school systems, and we are grateful for everyone working together who makes it happen.

Beginning Jan. 1, 2020, completion of a PTCB-recognized education/training program or equivalent work experience became required of all new CPhT applicants. To be considered eligible for the Pharmacy Technician Certification Exam (PTCE) under these new requirements, a candidate must attest to completion of a PTCB-recognized education/training program, or equivalent work experience as a pharmacy technician (min. 500 hours). We are extremely pleased to report the Therapeutic Research Center - PTU 101 module we administer qualifies as a PTCB-Recognized Education/Training Program of the CPhT program. In addition to PTU 101, we now offer two additional training modules as well through TRC – PTU Elite: Compounded Sterile Preparation Technician Program, and PTU Elite: Soft Skills Program. We have entered a new contract, which did slightly increase our rates, but the program remains very cost effective. For more details and enrollment information, contact Amanda Bacon at [amanda@sdpha.org](mailto:amanda@sdpha.org) or (605) 224-2338.

### **Fall & Spring District Meetings**

Spring District Meetings took a bit different look this year as district meetings took place across the state in much the same way as this convention - via Zoom. We provided an update on Association activities, COVID-19 efforts, a recap of the 2020 Legislative Session, and had great dialogue about other state and federal efforts. This unconventional format provided an opportunity for some to participate in the meetings without travel, and which was appreciated by many particularly in the Black Hills and Mobridge Districts, which cover a large territory. Many important items were addressed at Spring Meetings, including the election or re-election of district officers; nominations for the state association board of directors; and the recognition and nomination of worthy pharmacists, reps and technicians to be considered by the Executive Board for the awards presented at our annual meeting.

### **SD LECC Conference – Networking Opportunity with Law Enforcement & Physicians**

While we were unable to physically participate in this annual a networking opportunity with the US Attorney's Office and the South Dakota Attorney General, we appreciated much follow up discussion with participants and presenters following the event. We discussed current issues, events and problems. Case updates from the United States Attorney's Office, Attorney General's Office, South Dakota law enforcement agencies, licensing boards, and private practitioners were also shared.

### **National Meetings and Additional Training**

Executive Director Amanda Bacon and SDPhA Board President Lori Ollerich were slated to travel to Washington D.C. to attend the APhA & NASPA meetings. However, APhA was cancelled this year due to the pandemic. Amanda was able to participate in the NASPA meetings in a virtual capacity. Ollerich ensured South Dakota was represented in the virtual House of Delegates as well. Both the

conferences continue to be valuable resources for our members, even in a virtual format, and especially during this pandemic. We do typically take an opportunity to take our SDSU SCAPP/ASP-APHA students and faculty out for a dinner/activity, and greatly missed the opportunity to connect in this way this year. We look forward to resuming the tradition next time.

Former SDPhA President Eric Grocott was scheduled to attend the NCPA fly-in on behalf of SDPhA to meet with our South Dakota Congressional Delegation to secure support for various federal pieces of legislation affecting pharmacy, as well as bring them up to speed on pharmacy issues here at home. However, this event too, was cancelled due to the pandemic. SDPhA will continue to engage with our delegation face-to-face when those options are available and appropriate. In the initial stages of the crisis, we were engaged with them via calls and email on an almost daily basis – the rapid pace has slowed, but we continue to work with them on pandemic-related legislation impacting pharmacists.

Finally, the annual SDPhA Board of Directors Retreat was held virtually this summer. The meetings spanned several evenings in June and July of 2020.

### **Antibiotic Stewardship Workgroup**

This workgroup was established by the Health Department and South Dakota pharmacists are playing a very large role. The work continues with meetings.

### **Prescription Drug Abuse/Awareness**

The Association continues its work to bring awareness to the proper disposal of medications. As the number of Drug Take-Back Sites continues to increase across the state, we are thrilled to help promote them and they are some of the most responded to and shared posts on our social media. In addition, we continue to support and promote the DEA Drug Take-Back events, however the Spring event was halted due to COVID-19. The Fall Take Back event is now scheduled for Oct. 24, 2020 Visit [takebackday.dea.gov/](https://takebackday.dea.gov/) for more information.

### **Prescription Drug Monitoring Program**

The Prescription Drug Monitoring Program (PDMP) continues to grow and be an excellent resource for practitioners. South Dakota state law mandates PDMP registration for everyone who has a SD Controlled Substance Registration (SD CSR).

While the Board of Pharmacy is the entity managing the program, an advisory board was established under the law which consists of at least twelve (12) designees. Dave Mentele and Jim Bregel serve on the advisory board. The group continues to make recommendations to the Board of Pharmacy as to how to best use the program to improve patient care and reduce the misuse, abuse or diversion of controlled substances. The advisory council also makes recommendations to the Board regarding safeguards for release of information to only persons who are entitled to access in order to maintain the confidentiality of program information.

### **South Dakota Opioid Abuse Advisory Committee**

A survey recently released by the Centers for Disease Control and Prevention finds 13% of respondents (in June) said they had started or increased substance abuse to deal with stress or other emotions related to COVID-19. Nationwide, pharmacists continue to engage in the work to prevent prescription drug abuse with the knowledge that real solutions must balance the need for patient access to medications for legitimate medical purposes with the need to prevent diversion and abuse. Pharmacists are in a unique position to combat this epidemic due to their expertise and accessibility. SDPhA Vice President Kristen Carter represents SDPhA on the South Dakota Opioid Abuse Advisory Committee. This committee meets twice a year.

## **SDSMA Ad Hoc Committee on Prescription Drug Diversion and Abuse**

Past President Bukovich continues to participate in the South Dakota State Medical Association (SDSMA) Ad Hoc Committee on Prescription Drug Diversion and Abuse. The committee comprised of members from numerous South Dakota healthcare professional organizations was formed in early 2019 by the SDSMA with the goal of developing evidence-based guidelines for acute pain prescribing and treatment. The committee collaboratively finalized the whitepaper, Effective Management of Acute Pain, which SDPhA also formally supported in June 2019. SDPhA remains committed to continuing to work closely with all stakeholders on this issue which is aligned closely with our mission and purpose.

## **Health Professional Assistance Program**

Our association continues to support the HPAP program. The SDPhA Board was pleased to welcome Amanda McKnelly and Maria Piacentino of Midwest Health Management Services, which operates the HPAP program, to a recent board meeting. McKnelly and Piacentino spoke to the finer points of the HPAP program's role and function, including associated costs to SDPhA, and pharmacist participant numbers. Program costs to SDPhA have doubled since 2018. SDPhA does continue to support the HPAP program, and encourage its use. A pharmacist may access the program by self-referral, board referral, or referral from another person or agency, employer, coworker or family member.

## **Midwest Pharmacy Expo and Clinically Intensive Workshops**

We continue our work with the Iowa Pharmacists Association to promote the Midwest Pharmacy Expo, which is a comprehensive event offering a great deal of excellent CE for pharmacists and technicians. In exchange, our pharmacists will have access at a great rate to attend, and allows us to offer more benefits for our members. The event has become more regional, with a significant number of states engaged. The dates have been set for Feb. 5-7, 2021, at the Hilton Des Moines Downtown in Des Moines, IA. Stay tuned for more details.

## **Other Office Information**

- Converted SDPhA Annual Convention to virtual platform and developed virtual showcase for vendors
- Developed and enhanced promotional materials on the importance of SD Pharmacists
- Provided outreach and shared information with new lawmakers regarding pharmacy
- Provided guidance on pertinent legislation, working with state lawmakers
- Updated educational materials to share with interested groups
- Acted in advisory and liaison capacities to other agencies, departments, associations
- Worked with SD BOP on rules revisions
- Subcommittee members representing Pharmacy on the PDMP working group
- Increased awareness, especially with lawmakers, regarding immunization activities available from pharmacies
- Developed documents for utilization of pharmacy, students, and technicians for Legislative Session, District Meetings, and other applications
- Worked with pharmacy students to share information and enhance networking opportunities
- Lobby our Congressional delegation to move national pharmacy legislation forward and share information on national issues that involve pharmacy
- Updated various policy materials

The SDPhA Board of Directors and Staff are pleased with the accomplishments of 2019-2020, and are committed to continuing to provide services and representation for all pharmacists in South Dakota.

Respectfully submitted,

*Amanda*

## **DRAFT BOARD POLICY STATEMENT COVID-19 TESTING BY PHARMACISTS**

The South Dakota Board of Pharmacy acknowledges that the United States Department of Health and Human Services (HHS) published guidance on April 8, 2020 regarding the fact that the Public Readiness and Emergency Preparedness (PREP) Act passed, authorizing licensed pharmacists to order and administer COVID-19 tests, including serology tests, and that the Food and Drug Administration (FDA) has authorized<sup>1</sup> through its Emergency Use Authorization (EUA.)<sup>2</sup> Further the HHS Office of General Counsel has issued an advisory opinion that says licensed pharmacists may order and administer COVID-19 tests regardless of state or local restrictions.<sup>3</sup>

Further, the Coronavirus Aid, Relief, and Economic Security (CARES) Act allows patients who are uninsured to be billed by pharmacists to HRSA for COVID-19 testing services.<sup>4</sup> Additionally, the SD Medicaid program will pay pharmacists as well.<sup>5</sup>

It is the Board's policy that during the COVID-19 Federal Emergency, pharmacists may order, perform, and report COVID-19 tests without a separate provider order or collaborative practice agreement if the requirements listed below are met. Currently, most of the tests are Clinical Laboratory Improvement Amendments (CLIA) waived tests per the Centers for Disease Control (CDC) and supported by the Food and Drug Administration (FDA) and therefore will require a CLIA waiver to perform these tests.<sup>5,6</sup> When the emergency declaration has ended, the pharmacist may only perform these tests by physician order. This policy statement is to further clarify and allow pharmacists to order and perform COVID-19 testing for their patients.

This policy is in effect for the duration of the State of South Dakota declared emergency or the PREP Act, whichever expires soonest

Before a pharmacist may begin testing, the following must be completed:

1. The pharmacy notifies the Board before testing commences and provides the Board with the policy and procedures written for testing which includes the type of FDA approved test, staff training, the location of testing, i.e., parking lot of pharmacy, planned personal protective equipment (PPE) use, documentation, informing the provider of the test.
2. A pharmacist conducting COVID-19 testing must be dedicated to testing only and may not be working in a dispensing role while performing testing. **Pharmacy interns and technicians may assist in the COVID-19 testing if the actual testing is performed by the patient or a pharmacist.**
3. **For testing that is conducted by the patient, pharmacy staff may educate on testing process, hand supplies to patient, and witness the patient performing self-testing and proper placement of the test medium into proper containers.**
4. The pharmacy must obtain a Clinical Laboratories Improvement Act (CLIA) waiver to perform these tests, if they will be using a device to process the tests in house. If sending to a commercial laboratory, the CLIA waiver is not required.

5. The pharmacy must assure that all staff performing these tests have the appropriate PPE to protect themselves and any staff from aerosolization as well as the proper training to perform and handle these tests.
6. The pharmacist may perform testing in a location which is not a licensed location, as long as the pharmacist is conducting the testing is licensed.
7. The pharmacist must report test results to the South Dakota Health Department at **sd.gov/diseasereport**
8. The pharmacy must receive a letter from the board allowing the pharmacy to begin testing before any type of testing is conducted by the pharmacy or pharmacy staff.

Passed by the South Dakota Board of Pharmacy on June 5, 2020. \_\_\_

Revised and Passed by the South Dakota Board of Pharmacy on September 24, 2020.

August 24, 2020

South Dakota Board of Pharmacy  
Kari Shanard-Koenders, R.Ph.  
Executive Director  
4001 W Valhalla Blvd  
Sioux Falls, SD 57106

Dear Kari Shanard-Koenders,

We are writing regarding South Dakota pharmacy license number 100-1933 for Animal Health International (AHI). We are requesting a variance from Administrative Rule 20:51:29:02 requiring the registration of pharmacy technicians to label product for final verification by a registered pharmacist.

The pharmacy operating under this license only dispenses prescription medications in full packages pursuant to a prescription written by a veterinarian. All prescriptions processed through this pharmacy are entered by registered pharmacy technicians and registered pharmacists at the Animal Health International Pharmacy located in Manchester, IA (License number 400-1559).

The pharmacy technicians at the Sioux Falls location are only responsible for labeling stock bottles of veterinary medications for final verification. The picking and dispensing of veterinary products at our Sioux Falls facility is completed by barcode scanning. These steps are lot number specific and tracked down to the customer level. The final verification of these prescriptions is completed in our Sioux Falls facility by a South Dakota registered pharmacist.

As you are aware, the technical functions which may be delegated to a pharmacy technician are listed under South Dakota Administrative Rule 20:51:29:21. Currently, the tasks being completed by registered employees at our Sioux Falls location fall under 20:51:29:21 (1):

- Performing packaging, manipulative, or repetitive tasks relating to the processing of a prescription or medication order in a licensed pharmacy.

It is our opinion these individuals are not completing packaging and manipulative tasks as is intended by this rule in the standard practice of pharmacy. Our employees are repetitively placing labels on the appropriate products that can include pallets of the same product. The pharmacy technicians at the AHI Sioux Falls facility do not count individual dosage forms, measure, weigh or perform any calculations as part of their work. Thus, they would be at a significant disadvantage when it comes to training and practicing for a national pharmacy certification exam as required under Administrative Rule 20:51:29:06.

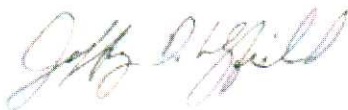

Currently compliance with South Dakota Administrative Rule 20:51:29:02 imposes an undue burden on our operations in our Sioux Falls facility. When we have a large order containing pallets of product that need to be labeled, we are unable to have other employees assist the pharmacy technician to label these medications. The result is delayed orders due to our registered pharmacy technician peeling and sticking hundreds of labels.

Patterson's CQI policy is attached as an example of the steps we take for continuous quality improvement in our pharmacy operations. We will continue to use this policy to ensure any changes impacted by this variance do not change the quality of the products we dispense to our customers.

In summary, we are requesting a variance from Administrative Rule 20:51:29:02 requiring the registration of pharmacy technicians to label product for final verification by a registered pharmacist. We believe the skills and training needed to label stock bottles of veterinary medications does not rise to the level of a registered pharmacy technician. The practice of having non-registered pharmacy technicians completing these tasks does not pose a risk to the public or the customers we serve. We are requesting the variance be in place until our current model of business changes for pharmacy operations.

We would welcome the opportunity to appear before the board to discuss any questions, comments or concerns regarding this variance request, and will provide additional information upon request. We appreciate your time and value the great work you do for the residents of South Dakota and profession of pharmacy.

Sincerely,

Enclosure: Patterson – Pharmacy Continuous Quality Improvement Policy and Procedure (June 2020)

	<b>Title: Pharmacy Continuous Quality Improvement Policy and Procedure</b>	
<b>Owner:</b> Jeff Wigfield Director of Pharmacy	<b>Effective Date:</b> June 8, 2020	<b>Last Reviewed:</b> June 8, 2020

A current copy of this document is available on [mypatterson.com](http://mypatterson.com).

## OBJECTIVE

The Pharmacy Continuous Quality Improvement Policy provides the framework and guidance for continuous quality improvement (“CQI”) for all locations dispensing orders pursuant to a veterinarian’s order, under the supervision of Patterson Companies, Inc. (“Patterson”).

## SCOPE

This Policy applies to employees of Patterson and its subsidiaries, (collectively referred to as “Patterson”) located in the U.S. (“Agents”) who dispense medications to customers pursuant to a veterinarian prescription.

## OBJECTIVES

1. The Policy provides the means to reach Patterson’s *Purpose, Values, and Vision*, and encompasses the pursuit of knowledge and skills necessary to effectively accomplish Patterson’s operational priorities.
2. CQI program evaluation is the responsibility of the Director of Pharmacy. The program provides measures of effectiveness and efficiency and a means for tracking system opportunities.
3. The CQI program will record and access errors and unsafe events that occur during the ordering, review, preparation, dispensing, and/or shipping of medications by Patterson to our customers.
4. The CQI program will ensure appropriate action is taken to prevent or reduce the chances of a recurrence of identified errors.
5. Submission of errors or unsafe events to the CQI program is meant to be non-punitive. Employees are encouraged to submit events as soon as possible after they occur to provide information for areas of improvement.

 <b>PATTERSON</b> COMPANY INC	<b>Title: Pharmacy Continuous Quality Improvement Policy and Procedure</b>	
<b>Owner:</b> Jeff Wigfield Director of Pharmacy	<b>Effective Date:</b> June 8, 2020	<b>Last Reviewed:</b> June 8, 2020

*A current copy of this document is available on [mypatterson.com](http://mypatterson.com).*

## PROCEDURE

1. Once an error or unsafe event is identified, the employee will notate and subsequently submit the details of the identified event in the [Pharmacy CQI submissions form](#).
  - Errors or unsafe events are variation(s) from a veterinarian's order and include but are not limited to: (i) incorrect medication; (ii) incorrect strength; (iii) incorrect dosage form; (iv) incorrect customer; (v) incorrect quantity; (vi) incorrect labeling; (vii) incorrect directions; or (viii) incorrect refills.
  - Items to be reported regarding the error or unsafe event include, but are not limited to: (i) date, time of day, and location of event; (ii) dispensing or entering employee; (iii) checking employee; (iv) name of medication; (v) strength of medication; (vi) prescription number; (vii) type of near miss; (viii) possible causes; (ix) circumstances to consider; (x) action taken; (xi) potential adverse events; and (xii) any applicable documentation.
2. If the error or unsafe event has impact on immediate business operations the employee should promptly notify a pharmacist or their manager of the event.
3. Errors will be researched and further discussed with the employees involved as necessary based on the review of the error report by the Pharmacist-In-Charge, Manager, and/or Director of Pharmacy.
4. Patterns and/or trends will be analyzed to determine if changes in policy and procedure or system changes need to be implemented to prevent reoccurrence.

---

## EXCEPTIONS

Exceptions to the Policy are not permitted unless prior written approval is obtained from the Director of Pharmacy and the Chief Compliance & Regulatory Officer.

**ENFORCEMENT**

Any Patterson personnel, including employees, contractors, vendors, suppliers, or any other legal entity, or person, found to have violated the Policy may be subject to disciplinary action, up to and including termination of employment or contract as applicable.

---

If you believe a violation of the Policy has occurred, please contact your manager, the Chief Compliance & Regulatory Officer, Director of Pharmacy, or your Human Resources Business Partner. Additionally, you may also report concerns to Speak Up Patterson, the Company's confidential Compliance hotline at: [www.speakuppatterson.com](http://www.speakuppatterson.com).

---

**DOCUMENT RETENTION**

All CQI-related documents will be retained for the length of time needed for business purposes, which in most circumstances is less than ten (10) years, unless a longer period of time is legally required.

---

**CHANGE CONTROL**

This is an online document. Paper copies are valid only on the day they are printed. Refer to the document owner if you are in any doubt about the accuracy of this document. For previous versions and change history contact the document owner.

### **Policy Statement on Transfer of Prescriptions**

The Board of Pharmacy recognizes that transfer of prescriptions to another pharmacy is allowed by the Administrative Rules of South Dakota. However, the specifics of § 20:51:23:01 needs further clarification. The rule states, for the purpose of dispensing refills of prescriptions, a pharmacy may transfer prescription information to another pharmacy, subject to the following requirements:

- (1) The transfer is limited to the number or refills authorized on the original prescription;
- (2) The transfer is communicated directly between two licensed pharmacists; and
- (3) Both the original and the transferred prescriptions are kept for two years from the date of the last refill.

The Board approves transferring a prescription with the following requirements:

- A pharmacy may transfer a prescription that is on hold and not filled as the intent of the rule is to not complicate or refuse filling a prescription.
- A pharmacy intern may transfer a prescription under the supervision of a pharmacist.
- The communication shall be either by verbal or facsimile and documented accordingly. Any unclear information on a facsimile must be clarified verbally between the pharmacists or interns.

Board Approved 9/25/2020
