# KNOW YOUR PLAN

It is important to understand your insurance coverage for your diabetes care - including office visits, screenings, lab tests, and pharmacy coverage.

## BEFORE YOU CALL:

 Consider checking your insurance company's website or app — many answers are available there.

 If you need additional assistance, call the phone number listed on your insurance card.

 Check with your insurance company to understand if there are different costs for in-network and out-ofnetwork visits.

#### Your medical and or/other insurance providers may provide the following benefits:

**Diabetes Self-**Management **Education Services** (DSMES)

Dietitian services/ Medical Nutrition Therapy (MNT)

**Continuous Glucose** Monitor (CGM)

**Immunizations** 

Specialty care

- Pharmacy benefits
- Mental health screenings and coverage
  - Adaptive shoes
  - Foot exams/foot care
  - Lab work

**Dilated** eye exams

Dental exams/cleanings

#### Many insurance companies offer additional free services, including, but not limited to:

This resource is meant to guide users through contacting their insurance company and is not a quarantee of coverage or benefits.
