F 000	INITIAL COMMENTS A recertification health survey for compliance with 42 CFR Part 483, Subpart B, requirements for Long Term Care facilities was conducted from 8/5/24 through 8/8/24. Sunset Manor Avera Health was found in compliance. A complaint health survey for compliance with 42 CFR Part 483, Subpart B, requirements for Long Term Care facilities was conducted from 8/5/24 through 8/8/24. Areas surveyed included staff-to-resident abuse with use of physical restraint, resident-to-resident abuse, and elopement. Sunset Manor Avera Health was found not in compliance with the following requirements: F604 and F641.	F 000		
F 604 SS=D	Right to be Free from Physical Restraints CFR(s): 483.10(e)(1), 483.12(a)(2) §483.10(e) Respect and Dignity. The resident has a right to be treated with respect and dignity, including: §483.10(e)(1) The right to be free from any physical or chemical restraints imposed for purposes of discipline or convenience, and not required to treat the resident's medical symptoms, consistent with §483.12(a)(2). §483.12 The resident has the right to be free from abuse, neglect, misappropriation of resident property, and exploitation as defined in this subpart. This includes but is not limited to freedom from corporal punishment, involuntary seclusion and any physical or chemical restraint not required to treat the resident's medical symptoms.	F 604	F 604 Correct to individual: as soon as this issue was discovered, the facility completed a State Report, an investigation was done. Resident #37 was assessed and no injuries or bruises were noted. Resident #37 did not remember the incident. CNA H's agency was notified immediately and told that CNA H was no longer allowed in our facility. The agency did terminate CNA H's employment. System correction: a new process for all new employees, including new agency staff has been implemented. This includes the following; new staff orientation check list with training videos now have area to initial and date when each video was completed. There is also an area to sign (affidavit) that states, "I, (staff name), as a healthcare professional, understand that I am a mandatory reporter while in the building. I also understand that as a healthcare professional, I will not abuse residents." (F 604 Continued on next page)	09/22/2024

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)	ID PREFIX TAG	PROVIDER'S PLAN OF CORRECTION (EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	(X5) COMPLETION DATE
F 604	Continued From page 1 §483.12(a) The facility must- §483.12(a)(2) Ensure that the resident is free from physical or chemical restraints imposed for purposes of discipline or convenience and that are not required to treat the resident's medical symptoms. When the use of restraints is indicated, the facility must use the least restrictive alternative for the least amount of time and document ongoing re-evaluation of the need for restraints. This REQUIREMENT is not met as evidenced by: Based on a facility-reported incident (FRI) review, observation, interview, record review, and policy review, the provider failed to ensure one of one sampled resident (37) who was cognitively impaired received adequate care and monitoring to ensure she was free of physical restraints imposed for discipline or convenience and not required to treat the resident's medical symptoms that resulted in an incident of resident abuse by one of one agency staff member (H). Findings include: 1. Review of the South Dakota Department of Health (SD DOH) event report for resident 37 on 6/28/24 revealed: *She returned from the hospital on 6/28/24 at 6:35 p.m., was restless, and had tried multiple times to stand up from her chair. -She was unsteady when walking. -She was redirected to sit in her wheelchair by agency certified nursing assistant (CNA) H. -"For nearly an hour and half resident [resident 37] continues to try to stand up or get out of the wheelchair and resists against [first name of agency CNA H] but is physically restrained against and to the wheelchair by [first name of	F 604	(F 604 continue from previous page) System correction continued: For new agency staff, they will be required to complete orientation videos and read specific facility policies prior to picking up shifts at our facility. The videos that will now be required are; Trauma Informed care, Positive Dementia care - Our calling, Our commitment, Our culture, De-escalating agressive behavior of a person with dementia, Resident Rights, Abuse, Neglect & Exploitation-Recognition & Reporting, along with Restraint Devices: Promoting a Restraint Free Culture. The policies that must be read include; resident rights, abuse policy, behaviors and interactions plan, cell phone policy and the weather and fire safety plans. These all must be completed, signed off and sent to DON prior to any new agency staff being allowed to work in our facility. All current nursing staff, including agency staff will need to complete the above training with signed affidavit by 09/22/2024 or they will no longer be able to pick up shifts here until it is completed. Monitoring of system: audits will be completed for all orientation training checklists and for signed affidavits. Audits will be completed by DON, Admin or designee weekly x 4 weeks, 2x/monthly for 3 months, followed 1x/monthly for 3 months. All audit results will be reported and reviewed monthly at QAPI meetings by DON, Admin or designee.

F 604	Continued From page 2 agency CNA H]." --"During this time [first name of agency CNA H] is physically holding [resident 37's first name]'s arms down to the wheelchair, what appears to be digging her chin into [resident 37's first name]'s scalp, towers over resident and appears to have several verbal exchanges with resident." -"At 8:51 p.m. nurse [agency registered nurse (RN) I] comes back to unit and rubs [resident 37's first name]'s back and talks with her which calms her down." -"2nd nurse [LPN J] comes back to unit at 8:54 p.m. and also talked to [resident 37's first name] and they [agency RN I and LPN J] take her to recliner on unit and she does not want to sit there ..." -"They [agency RN I and LPN J] then take her down to her room and she is calm." 2. Observation on 8/6/24 at 2:07 p.m. of resident 37 revealed she was in the activity room involved with a resident group activity led by a local pastor. She was sitting in a chair and actively singing a hymn with the pastor and other residents. 3. Interview on 8/6/24 at 4:00 p.m. with resident 37 in her room revealed: *She enjoyed pastor visits, watching movies, and loved to read. *She could not remember any staff member being upset with her, raising their voice to her, or holding her down, stating "They [the staff] are very good to me." *She had no recollection of the 6/28/24 incident or having been to the hospital that day. 4. Review of Resident 37's electronic medical record (EMR) revealed: *She was admitted to the facility on 6/26/23.	F 604

K 000	INITIAL COMMENTS A recertification survey was conducted on 8/6/24 for compliance with 42 CFR 483.90 (a)&(b), requirements for Long Term Care facilities. Sunset Manor Avera Health was found not in compliance. The building will meet the requirements of the 2012 LSC for existing health care occupancies and the Fire Safety Evaluation System (FSES) dated 8/12/24. Please mark an F in the completion date column for K241 deficiencies identified as meeting the FSES. The building will meet the requirements of the 2012 LSC for existing health care occupancies upon correction of the deficiencies identified at K100, K271, K522, and K911 in conjunction with the provider's commitment to continued compliance with the fire safety standards.	K 000		
K 241 SS=C	Number of Exits - Story and Compartment CFR(s): NFPA 101 Number of Exits - Story and Compartment Not less than two exits, remote from each other, and accessible from every part of every story are provided for each story. Each smoke compartment shall likewise be provided with two distinct egress paths to exits that do not require the entry into the same adjacent smoke compartment. 18.2.4.1-18.2.4.4, 19.2.4.1-19.2.4.4 This REQUIREMENT is not met as evidenced by: Based on observation and record review, the provider failed to maintain two conforming exits	K 241		F

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)	ID PREFIX TAG	PROVIDER'S PLAN OF CORRECTION (EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	(X5) COMPLETION DATE
K 241	Continued From page 1 on each fire section of the building. One of two areas (east basement mechanical room) had only one conforming exit. Findings include: 1. Observation on 8/6/24 at 1:45 p.m. revealed the exit stairway from the basement mechanical room discharged into the corridor system on the main level. The second exit from the basement mechanical room was through a window to an area well equipped with a fixed ladder. Review of the previous survey data dated 7/11/23 indicated that condition had existed since the original construction. The deficiency would not affect any residents. The building meets the FSES. Please mark an F in the completion date column to indicate correction of the deficiency identified in K000.	K 241		
K 271 SS=C	Discharge from Exits CFR(s): NFPA 101 Discharge from Exits Exit discharge is arranged in accordance with 7.7, provides a level walking surface meeting the provisions of 7.1.7 with respect to changes in elevation and shall be maintained free of obstructions. Additionally, the exit discharge shall be a hard packed all-weather travel surface. 18.2.7, 19.2.7 This REQUIREMENT is not met as evidenced by: Based on observation, testing, and interview, the provider failed to provide a paved path of egress for one of six exits (TV lounge west exit). Findings include: 1. Observation on 8/6/24 at 1:30 p.m. revealed	K 271	K 271 System correction: We were able to find a local contractor who poured concrete for a paved pathway to the west alley on 08/27/24. No other correction needed at this time.	08/27/2024

K 271	Continued From page 2 the west exit discharge for the TV lounge was paved completely to the public way. The sidewalk paving stopped approximately 10 feet from the alley. Interview with the maintenance supervisor at the time of the observation confirmed that condition. The deficiency had the potential to affect 100% of the smoke compartment occupants.	K 271		
K 911 SS=C	Electrical Systems - Other CFR(s): NFPA 101 Electrical Systems - Other List in the REMARKS section any NFPA 99 Chapter 6 Electrical Systems requirements that are not addressed by the provided K-Tags, but are deficient. This information, along with the applicable Life Safety Code or NFPA standard citation, should be included on Form CMS-2567. Chapter 6 (NFPA 99) This REQUIREMENT is not met as evidenced by: Based on record review and interview, the provider failed to perform generator maintenance as required (load bank testing) for the Kohler 500 kW diesel generator since 2020. Findings include: 1. Record review on 8/6/24 at 1:35 p.m. revealed there was no documentation the monthly load runs met or exceeded thirty percent (30%) of the generator's name plate capacity in order to avoid an annual load bank test for a diesel generator. Further record review revealed provider load test percent of load runs were last documented in 2019 and were at 19% to 20% of nameplate value. If any month in the year has a load test under 30% of nameplate value, a load bank is	K 911	K 911 System Correction: Load Bank was completed on 8/7/2024 and is now scheduled yearly with Interstate Power Systems. They will also continue to provide maintenance for our generator 2 times per year as an already contracted service. Maintenance Director will continue to do weekly checks on the generator and will maintain all documentation of weekly checks, any maintenance reports and Load Bank reports that are completed by Interstate Power Systems.	08/07/2024
