

aVIII. CERTIFICATION, ELIGIBILITY & COORDINATION OF SERVICES

(Please indicate) **State Agency: South Dakota** for FY 24

The review of certification, eligibility and coordination of services involves the process of determining and documenting participant eligibility (income eligibility as well as nutritional risk determination, standards, and criteria), and the coordination of certification activities with other health services.

During a disaster or public health emergency, or supply chain disruption, the State agency may request to implement existing WIC regulatory and programmatic flexibilities or waivers to support the continuation of Program benefits and services. State agencies should consider the overarching authority, i.e., Stafford Act, Access to Baby Formula Act, or provision(s) authorized by Congress, and duration before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility or waiver through their procedure manual where applicable. Please note the State Plan Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements.

Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation*," was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations, rather it complements the language in the nondiscrimination statement. Following the contents of the EO, State agencies must update their policies and procedures to align with the contents of the EO and the nondiscrimination statement.
