

Ebola Donning of PPE – N95 and Gown Checklist

Healthcare Personnel Name _____ Date _____ Room # _____
Time _____

Trained observer CLEAN DONNING AREA
<input type="checkbox"/> Use a checklist
<input type="checkbox"/> Healthcare worker has attended to personal needs (hydration/restroom)
<input type="checkbox"/> Remind that you will be reviewing the steps aloud and to repeat back
<input type="checkbox"/> Remind steps should be done slowly and methodically
Remove personal clothing and items – visual inspection
<input type="checkbox"/> Clean surgical scrubs/disposable clothing
<input type="checkbox"/> Shoes (closed toe and heel – no holes, washable I.E. rubber/plastic)
<input type="checkbox"/> No personal items (pager, phone, watches, jewelry, pens, ID badges, etc.)
<input type="checkbox"/> Hair pulled back off face, neck and back
<input type="checkbox"/> Nails short (no longer than ¼")
Visually inspect the PPE ensemble (HC worker with trained observer watching)
<input type="checkbox"/> Serviceable condition
<input type="checkbox"/> All required PPE and supplies available
<input type="checkbox"/> Sizes selected are correct for the healthcare worker
<input type="checkbox"/> Reviews donning sequence with the healthcare worker aloud step-by-step
Perform Hand hygiene
<input type="checkbox"/> In between fingers
<input type="checkbox"/> Backs of hands
<input type="checkbox"/> Wrists
Boot covers (Sit on chair)
<input type="checkbox"/> Ensure all areas of foot are covered (boot covers snug over ankle)
Put on gloves
<input type="checkbox"/> Put on inner gloves
Put on gown
<input type="checkbox"/> Inspect integrity and proper sizing
<input type="checkbox"/> Tie gown on side (leave length to untie)
<input type="checkbox"/> Tuck inner gloves under sleeve of gown
<input type="checkbox"/> Thumb hooks (if available) or taping of gown (tab created by folding tape over at end for removal)
Put on N-95 Respirator (Follow manufacturer instructions)
<input type="checkbox"/> Hold respirator in the palm of hand - straps facing floor. Place N95 respirator on face - cover nose and mouth.
<input type="checkbox"/> Pull the bottom strap up and over top of head, put it behind head and below ears.
<input type="checkbox"/> Take the upper strap and put it behind head towards the crown of the head.
<input type="checkbox"/> Mold the nose piece of the respirator over the bridge of nose to obtain a tight seal.
<input type="checkbox"/> Perform a fit check to ensure there is a good seal against the skin.
Put on Surgical Hood
<input type="checkbox"/> Inspect for integrity
<input type="checkbox"/> Slowly pull hood over the head and shoulders. Skin is covered, no hair is hanging down, and the hood extends to the shoulders
Put on Outer Apron – If used for a Patient with diarrhea and vomiting
<input type="checkbox"/> Fluid resistant or impermeable apron that covers the torso to the level of the mid-calf.
Put on Outer Gloves
<input type="checkbox"/> Put on outer gloves to extend over sleeve of gown
Put on Face Shield
<input type="checkbox"/> Put on a full face shield over the N95 respirator and surgical hood. Bend forward, hold on to the face shield with both hands, expand the elastic with thumbs and place the elastic behind head so that the foam rests on forehead. Once the shield is situated, check to make sure it covers the front and sides of the face and no areas are left uncovered.
<input type="checkbox"/> Verify integrity of ensemble (comfortable and able to extend the arms, bend at the waist, and go through a range of motions)
