Physical Activity For Children Three to Four Years

All children from birth to age 5 should engage daily in physical activity that promotes movement skillfulness and foundations of health-related fitness (NASPE, 2009).

Movements to Work on With Your Child

 Bouncing Hopping Soaring Darting Lumping 	Healthy heart			
 Dashing Dashing Dashing Plodding Striking Dodging Scampering Tossing Fielding Searching Trudging Flying Slithering Wandering Galloping 	 Benefits of Physical Activity to Children Healthy heart Social development through play Problem solving skills Increased coordination and movement skills Enhanced attention and focus Higher self-esteem 			
Sample Toys				
 Bouncing Tubes, 24" Hoops Bowling Set Double Blade Ice Skates Lightweight Hand Pad- dles Low Balance Beam 	Pedal Ride-Ons• Soft Baseball & BatRhythm Band Instruments• Stick PonyScooter Boards –Safety Grips• Tricycle-Low Slung 10"-12" Back Wheel • Wading PoolLow-6' Tunnel• Wading Pool			

Games

Read, Run, & Race About	Alphabet Zoo	Ride'em Cowboy/Girl	Cape Capers
Select a favorite action storybook and have the child imitate the actions and expressions of the characters as the story is read aloud.	Create an action story on an imaginary visit to the "Alphabet Zoo." Go through the alphabet using an animal that starts with each letter. Have your child imitate the movement of that animal. (Bird – Flying)	Place a jump rope under the arms of the child and grasp the pretend reins as the child gallops in creative pathways. "Giddy up horse walk, trot, run, whinny, whee hee hee! Oh what fun! Riding together you and me."	With a small blanket or bath towel, show how to make a cape, placing the prop behind the neck. Have your child grasp the prop over out- stretched hands and pretend they are flying like an eagle, flapping wings and soaring.
