

MARKETING PLAN

Purpose

The Wellness on Wheels (WOW) program provides accessible healthcare services to underserved communities across South Dakota. This marketing plan outlines strategies to increase awareness and engagement in communities hosting the WOW mobile units.

Target Audiences

- + Residents of underserved communities (including rural populations)
- + Pregnant women and families
- + Parents and guardians of young children
- + Individuals needing STI testing, immunizations, or general health screenings
- + Community health organizations and local clinics
- + Local media (radio, newspaper, TV)
- + Businesses and employers supporting employee wellness

Services Offered

WIC Program

Pregnancy Care

Safe Sleep

Immunizations

Developmental Screening

Maternal Depression Screening

Oral Health

Sexually Transmitted Infection Testing

MARKETING COMPONENTS

The following tools can be used to promote the WOW mobile unit visits.

Press Release

- + A **template press release** is available to community partners.
- + Fill in the event details and submit it to **local newspapers, radio stations, and online community boards** about **4 weeks ahead of the event**.

[**Download the Press Release Template >**](#)

Public Service Announcement

- + A **short PSA script is available** for community partners to distribute.
- + Fill in the event details and **submit it to local radio stations 3 weeks before the event**.

[**Download the PSA Template >**](#)

Flyer/Poster

A **customizable flyer/poster** is provided for partners to disperse **3 weeks ahead of the event**.

Posters should be displayed at:

- + Community centers and libraries
- + Local businesses and grocery stores
- + Social service agencies
- + Health clinics and WIC offices
- + Schools and daycare centers

Digital versions can be shared on social media pages and in newsletters.

[**Download the Community Flyer Template >**](#)

Social Media

Recommended posting schedule:

- + **Two weeks before:** Initial announcement post.
- + **One week before:** Reminder post.
- + **Day before:** Final reminder post.
- + **Day of event:** Live updates and community engagement.

- Developmental Screening; and
- Sexually Transmitted Infection (STI) Testing.

(Replace quote OR use the following) “Through initiatives like the Wellness on Wheels van, we’re making it easier for people in South Dakota to access essential healthcare services,” said [Name of Local Representative]. “By bringing care to the community, we aim to address barriers like transportation and provide tailored solutions for public health needs.”

The Wellness on Wheels (WOW) program is an innovative initiative by the South Dakota Department of Health. The WOW van offers a range of critical services to address the diverse healthcare needs of South Dakotans, particularly those facing socioeconomic barriers.

Through collaboration with community organizations, healthcare providers, and social service agencies, the WOW van brings healthcare directly to individuals where they live and work. The program also enhances referrals, improves care coordination, and addresses gaps in services, fostering better health outcomes statewide.

For more information about the Wellness on Wheels program, visit <https://doh.sd.gov/programs/wellness-on-wheels/>.
